

12321

TO: Board of Acquisition and Contract

FROM: John J. Hsu, P.E.
Acting Commissioner of Public Works

DATE: June 16, 2010

SUBJECT: Resolution for Authority to Advertise
Contract No. 09-500
Data Center Floor Replacement
148 Martine Avenue
White Plains, New York

The 2010 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required to remove and replace the existing Data Center raised floor panels.

The objective of this contract is to replace worn and delaminating carpet floor tiles that have reached the end of their useful life with new, non-static, laminate floor tiles.

This contract is in the public's best interest because it will provide for a static free environment in the data center, thus addressing the County Executive's priority area: Safety and Security (SS). There are no energy or environmental components associated with this project.

If this resolution is not approved, the delaminating carpet floor panels could potentially pose a safety hazard.

The department will utilize Primavera Software Management tools to track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
