Acting Commissioner of Health

RE: Authorization to Enter into Contract to Accept Continued Funding from Health Research, Inc. for the Integrated Healthy Women Partnership Cancer Program Grant (Breast and Cervical Cancer Screening)

Contract Term: June 30, 2010 – June 29, 2011
Contract Amount: Not-To-Exceed \$293,092

The Westchester County Department of Health seeks authorization to enter into contract to accept continued funding from Health Research, Inc., pursuant to an approved budget, for the Integrated Healthy Women Partnership Cancer Program grant, for the period 6/30/10 – 6/29/11 in the not-to-exceed amount of \$293,092 for the continued support of the Comprehensive Breast and Cervical Cancer Early Detection Program.

This contract's public purpose is to promote the public health and general welfare of County residents by reducing the incidence of breast and cervical cancer through early detection screening services provided to uninsured or underinsured women throughout the County, who might otherwise not have access to these services.

This program is part of the comprehensive Cancer Services Program. The goal is to provide early detection screening measures and follow-up services for women ages 40 to 64, women under the age of 40 who have a predisposition to breast or cervical cancer and those 65 years and older who are not eligible for Medicare. The WCDH has established formal, contractual agreements with various medical providers and organizations to provide cancer screening to these women, within the community.

Continuation of this program ensures that uninsured/underinsured women in Westchester County receive vital early detection cancer screening services.

This program is monitored through monthly productivity reports produced through the NYSDOH data reporting system. Approximately 400 patients are screened monthly.

Approval of the attached resolution is respectfully requested.
