TO: Board of Acquisition and Contract

FROM: John J. Hsu, P.E.
Commissioner of Public Works

DATE: September 16, 2010

SUBJECT: Resolution for Authority to Advertise
Contract No. 10-533
Rental Car Parking Area Resurfacing
Westchester County Airport
Towns of Harrison and North Castle and Village of Rye Brook, New York

The 2010 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required to convert the existing employee parking lot to rental car storage including resurfacing and re-striping, installation of control gates, lighting and guide rail.

The objective of this contract is to replace substandard areas of asphalt paving, lighting and fencing, thus addressing the County Executive's priority area: Safety and Security (SS).

The deicing project consists of three (3) elements – the fluid collection system, storage tanks for the fluid, and a truck loading area. The storage tanks and truck loading areas will be constructed in the area presently occupied by the car rental parking lot located on the south side of the terminal. The car rental lot needs to be relocated to the north side of the terminal building, at the current employee lot. The current employee lot needs to be reconstructed to accommodate the rental car agency usage.

This contract is in the public's best interest because it will increase the parking capacity at the Airport for use by the rental car companies. There are no environmental or energy components associated with this project.

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.

Payment for this entire contract will be made from the Airport Special Revenue Fund, not the County General Fund and will not impact the County tax levy.
