Subject: Authority for the County of Westchester to enter into an agreement with The Children's Village, Inc. to provide transitional living services for homeless and aging out of foster care youth ages 16-21 and to assist them in achieving self-sufficiency and thus avoid long term dependency on supportive services from the County of Westchester, for the period July 1, 2011 through June 30, 2012, in an amount not to exceed \$125,860, to be paid monthly pursuant to an approved budget and subject to appropriation

Authority is requested for the County of Westchester to enter into an Agreement with The Children's Village, Inc. to provide transitional living services for homeless and aging out of foster care youth ages 16-21 and to assist them in achieving self-sufficiency and thus avoid long term dependency on supportive services from the County of Westchester, for the period July 1, 2011 through June 30, 2012, in an amount not to exceed \$125,860, to be paid monthly pursuant to an approved budget and subject to appropriation.

The proposed agreement will provide a program called "Life Bridges" that is comprised of residential and non-residential components. The residential component will provide housing through intensely supervised independent living apartments as well as life skills training, referral and follow-up with mental and physical health care. Job preparedness training, ongoing counseling, and practice at real work activities such as budgeting, banking, saving and bill paying are also provided as part of the residential component. The residential component will serve 18 youth. The non-residential component will provide auxiliary services to 60 youth annually that include emergency cash assistance, housing subsidies, job

readiness training and paid internships with participating employers. The Children's Village, Inc. has consistently proven successful in delivering these services

The proposed agreement will **serve a public purpose** by reducing the long term dependency of the targeted population on supportive services from the County because the program equips them with the tools needed to move from dependency to self-sufficiency.

The **goals and objectives** of the Life Bridges program are to provide transitional living services to young adults aged 16-21 who are homeless or aging out of foster care in order to make them independent and self sufficient. The program provides them the necessary tools to become self sufficient. Foster Care support ends when a young adult turns age 21. If not prepared for the end of services, the young adult is at risk of continued homelessness and dependence on Temporary Assistance. The objective of Life Bridges is to strategically prepare these high risk young adults for Independent Living. This objective will be achieved through two core services: 1) a supervised community apartment program which provides the youth with the experience of maintaining an apartment, and 2) an education and employment training program to teach how to find and maintain employment and to continue vocational and educational planning. In addition, the program will provide on-going case management services to address individual needs, such as mental health issues, substance abuse, or crisis intervention services.

The **goals and objectives of this program are in the best interest of the County in terms of public health and public safety** as they are aimed at ensuring and enhancing the health and safety of the targeted population. The program provides this vulnerable population with transitional housing that is a safe haven for them to live in. Housing homeless and foster care youth aging out of the foster care system will reduce the risk of them becoming homeless and victims of crime. The youth also receive direct support services such as independent living skills training, academic and vocational instructions, job readiness and job placement as well as mental and physical health care that will help promote the well being of the youth.

The aforesaid **goals and objectives are in the best interest of the County in terms of fiscal responsibility and public policy** as they promote individual self-sufficiency, reduce homelessness and dependence on Temporary Assistance and improve the successful transition of foster children to adulthood. Listed below are some of the ways by which the program would help cut costs and thereby reduce the County's financial burden.

- **Annualized costs associated with homelessness:** It costs the County about \$100 a day to service a homeless youth. That translates to an annualized cost of \$36,500 per homeless youth.
- **Annualized Program costs:** The Children's Village, Inc. Life Bridges Program cost is \$125,860 per year. The program has a capacity to serve 78 youth in the 2010 contract year. This translates to a cost of \$1,613.59 per youth per year.

The Department of Social Services will continue **to track and monitor the success of the Life Bridges program** by requiring the submission of regular reports outlining the program's

success in assisting clients in maintaining employment, enrollment in education and vocational training, providing training in budgeting, banking, and household management, and number of youth served.

The Department is able to report that The Children's Village's Life Bridges Program is on track to meeting contract capacity for the 2010-2011 contract years. As of May 2011, over 80 youth have been served which represents 103% of the contract capacity. Forty-six percent (46%) of the youth in the residential program were transitioned into permanent housing. Sixty-seven percent (67%) of those youth obtained some form of employment.

This contract is exempt from the Westchester County Procurement Policy pursuant to Section 3 (a) xviii.

Accordingly, authority to enter into an agreement with The Children's Village, Inc. to provide the aforesaid services is respectfully requested.

An appropriate resolution is attached herewith seeking your Honorable Board's approval.
