

## 21012

**DATE:** August 11, 2011

**TO:** Board of Acquisition and Contract

**FROM:** Cheryl Archbald, M.D., M.P.H.  
Acting Commissioner of Health

**RE:** Authorization to Enter into Contract to accept continued funding from the New York State Department of Health for the Bathing Beach Water Quality Monitoring and Notification Program Grant

Contract Period: October 1, 2011 – September 30, 2012  
Contract Amount: Not-To-Exceed \$31,412

The Westchester County Department of Health seeks authorization to enter into contract to accept continued funding from the New York State Department of Health (“NYSDOH”), for the Bathing Beach Water Quality Monitoring and Notification Program grant, pursuant to an approved budget, for the contract period October 1, 2011 through September 30, 2012, in the not-to-exceed amount of \$31,412.

This contract will promote the public health and welfare of County residents by monitoring and assessing the pathogen/bacterial concentration levels in coastal recreational waters.

The goal and objectives of this program are to reduce the risk of disease to users of Westchester County recreational waters through strengthened water quality standards for bathing beaches to ensure the safe quality of all impacted public beach water, and to provide better information regarding beach water quality to the public. Objectives are accomplished by conducting an initial pathogen sample test prior to the bathing season, classifying and ranking the sampling frequency for each beach, performing additional water sampling if bacterial concentration exceeds the water quality standard, and notifying the public if necessary.

The program is tracked and monitored by reporting test results weekly to the NYSDOH’s Bureau of Community Environmental Health and Food Protection (BCEHFP) and when a beach closure becomes necessary. Twenty-two (22) beaches are routinely sampled and monthly reports are submitted to the BCEHFP.

Approval of the attached resolution is respectfully requested.
