Subject: Resolution authorizing the County of Westchester, acting by and through its Department of Social Services, to enter into an agreement with Sandata Technologies, LLC, for the provision of an automated telephony system that allows all case notes to be called in by caseworkers in the field for transcription and availability by utilizing a product device called Santrax for an amount not to exceed \$60,000 to be paid pursuant to an approved program budget and subject to appropriation for the period July 1, 2012 through June 30, 2013

Attached for your consideration is a resolution which, if approved by your Honorable Board, would authorize the County of Westchester, acting by and through its Department of Social Services, to enter into an agreement with Sandata Technologies, LLC, for the provision of an automated telephony system that allows all case notes to be called in by caseworkers from the field for transcription and availability by utilizing a product device called Santrax for an amount not to exceed \$60,000 to be paid pursuant to an approved program budget and subject to appropriation for the period July 1, 2012 through June 30, 2013. Please note that there has been no increase in the budget requested for this year's agreement.

The proposed agreement will serve a **public purpose** by assisting the County to enhance the quality of services provided to the children and families in the area of child welfare.

The goals and objectives of this agreement are:

- To ensure timely and accurate documentation of child welfare activities within the mandated timeframe
- To facilitate the entry of case notes into “Connections”, the statewide child welfare data base
- To free caseworkers to pursue the vital family engagement activities of their cases

The goals and objectives are in the best interests of the County regarding public safety in that all case notes transcribed by the vendor are accurately documented within twenty four (24) business hours and readily available for use in case hearings, court hearings, etc.

The goals and objectives are in the best interests of the County regarding fiscal responsibility in that the cost of the proposed agreement is considerably less than the cost of four (4) full time employees with salaries plus fringes of approximately \$64,260 each, which is what it would take to support the existing volume of notes and meet the goal of completing the transcriptions within twenty four (24) hours. Sandata can provide 10 to 50 professional transcribers in order to meet this twenty four (24) hour turnaround requirement.

The goals and objectives of this agreement will be tracked and monitored using the Performance Measurement Indicators developed by the Department and approved by the County Budget Office.

The Department is able to report that in 2011, 355 child welfare staff made a total of 4,840 successful calls to Santrax for case note transcription.

Therefore, the County of Westchester, acting by and through its Department of Social Services, is seeking your Honorable Board’s approval to enter into this agreement with Sandata Technologies, LLC for continued provision of the product device, Santrax. Authority to exempt the proposed agreement from the application of the Procedures of the Westchester County Procurement Policy pursuant to Section 3(a) xxi was requested in a separate resolution.

An appropriate resolution is attached herewith seeking for your Honorable Board’s approval.
