Re: Resolution authorizing the County of Westchester to enter into an agreement with the Family Service Society of Yonkers for the period January 1, 2013 through December 31, 2013 for the provision of Representative Payee Services in an amount not to exceed \$205,234 to be paid monthly on a per client basis pursuant to an approved budget and subject to appropriation

Pursuant to a decision and order of the Supreme Court, as affirmed by the Appellate Division in *Dan R. v. Bane*, 199 AD2d 322 (1993), the County is required to provide financial management services to persons who are unable to manage their own finances as a result of chronic mental dysfunction and to those who are otherwise eligible for such services.

Authority is requested for the County of Westchester to enter into an agreement with the Family Service Society of Yonkers to provide Representative Payee Services for up to 180 Community Support Services ("CSS") clients who require financial management assistance. The term of this agreement shall be January 1, 2013 through December 31, 2013. The agreement is for an amount not to exceed \$205,234 to be paid monthly on a per client basis pursuant to an approved budget and subject to appropriation. There has been no increase in the amount requested from that of last year.

The service provided pursuant to this proposed agreement serves a **public purpose** as it provides financial management assistance for Community Support Services ("CSS") clients who are unable to manage their own finances and thereby, assists in improving the quality of life for these citizens of Westchester County.

The **goals and objectives** of the proposed agreement are to provide financial management assistance to those CSS clients in need of these services.

The **goals and objectives are in the best interests of the County** because the clients served through this program are mentally dysfunctional, and managing the finances and paying the bills for this population helps **promote their health and safety** by preserving their integrity and protecting them from homelessness.

These **goals and objectives are in the best interests of the County regarding fiscal responsibility** in that they promote the financial well being of CSS clients living in the community.

The **goals and objectives are monitored** through monthly reports from Family Service Society of Yonkers which are received and reviewed by the contract/program monitor. The program office is responsible for evaluating the effectiveness of the program based on the performance measurement indicators developed by the Department and approved by the County Budget Office.

The **Department is able to report that to date under the 2012** contract 159 CSS clients, otherwise unable to manage their own finances, received the professional representative payee financial services that enabled them to enjoy an improved quality of life by living in the community as citizens of Westchester County.

This contract is exempt from the Westchester County Procurement Policy under Section 3(a) xiv and 3(a) xvii.

Accordingly, the County of Westchester is requesting authority to enter into an agreement with the Family Service Society of Yonkers for the above said purpose.

A resolution requesting the same is attached for your approval.
