RE: Authority to enter into an Agreement with the New York State Office for the Aging to accept a grant in the amount of \$2,511,799.00 to provide services under the Expanded In-Home Services for the Elderly Program, for the program period April 1, 2013 through March 31, 2014

The County of Westchester (the "County"), acting by and through the Department of Senior Programs and Services (the "Department"), seeks authority from your Honorable Board to enter into an agreement with the New York State Office for the Aging ("NYOSFA") to accept a grant in the amount of \$2,511,799.00 to provide services under the Expanded In-Home Services for the Elderly Program ("EISEP"), for the program period April 1, 2013 through March 31, 2014.

Of the \$2,511,799 in grant funds, \$2,057,631 will be used to provide subcontracted homemaker, housekeeper, respite care, case management and personal emergency response system services to frail, homebound seniors under EISEP. The balance of \$454,168 will be used directly by the Department to provide case management services, service management and area agency administration.

I certify that my department, a) has copies of, or access to, all applicable laws, rules, regulations, grant applications, and grant agreements (including any master grant agreement), as well as any guidance or instructions received from the agency making the grant (the "Grant Terms"), b) has reviewed the Grant Terms, c) is aware of and understands all of the Grant Terms, and d) can and will comply with all of the Grant Terms.

The proposed agreement will serve a public purpose by providing funds that will assist the County in providing services that enable seniors to remain at home, as most seniors would prefer, thereby preventing premature institutionalization, which would come at greater expense and in a less-desirable environment.

The goals and objectives of the proposed agreement are to obtain State funds to help seniors remain in their homes in the community through the provision of quality home care services, emergency response systems, sitter companions and social model day care programs to provide relief and respite to their caregiver(s).

The goals and objectives of the proposed agreement are in the best interests of the County in terms of fiscal responsibility, as the proposed agreement will supply New York State ("State") funds for the services to be provided to County residents, thereby allowing the services to be provided at a reduced cost to the County. The goals and objectives of the proposed agreement are also in the best interests of the County in terms of health. The services to be provided with the grant funds will offer improved health and quality of life for the frail elderly and their caregivers by easing their burden through the provision of homemaker and housekeeper services, emergency response services and providing respite care through sitter companions and social model day care programs.

The goals and objectives of the proposed agreement will be tracked and monitored by the Department's case managers through bi-monthly calls to seniors and their caregivers as to the quality of the services they are receiving and their satisfaction with the services. In addition, the Department's staff monitors and reviews case managers' client case records and records of service at the agencies providing these services, using forms approved by NYSOFA. Review of the program is done annually by a County monitor, as well as a monitor from NYSOFA.

For the previous fiscal year, 163 seniors received a personal emergency response system and 98,000 hours of homemaker and housekeeping services. There were 40 families that benefited from 8,851 hours of respite services through the In Home Sitter Companion program. There were also 28 seniors that attended a Social Model Adult Day Care Program that provided their caregivers with 13,589 hours of respite.

It should be noted that the proposed grant agreement does not constitute a procurement. As such, the provisions of the Westchester County Procurement Policy do not apply.

Accordingly, I recommend adoption of the proposed annexed resolution.
