TO: Board of Acquisition and Contract

FROM: Jay T. Pisco, P.E.
Commissioner of Public Works and Transportation

DATE: April 30, 2013

SUBJECT: Resolution for Authority to Advertise
Contract No. 11-528
Sewer Main Replacement
Various Hangars
Westchester County Airport
Towns of Harrison and North Castle and Village of Rye Brook, New York

The 2013 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required to replace sanitary sewer piping from Hangars "G", "F" and Building Number 11 along with portions of the Airport's sanitary sewer main line.

The objective of this contract is to replace approximately 50 year old cast iron sewer piping that has reached the end of its useful life with new ductile iron piping, thus addressing the County Executive's priority area: Health and the Environment (HE).

This contract is in the public's best interest because it will promote the health and safety of the general public by allowing Airport facilities to remain operational. There are no energy or environmental components associated with this project.

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.

Payment for this entire contract will be made from the Airport Special Revenue Fund, not the County General Fund and will not impact the County tax levy.
