Contract No. 13-213  
Grinding Out Coping Stone Joints and Repointing on all Buildings – Phase II  
Port Chester Wastewater Treatment Plant  
Port Chester, New York

The 2013 Non-Recurring Account contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required for masonry repairs to existing stone copings.

The objective of this contract is to repair structural elements and to maintain the weather tightness of the existing structures at the Port Chester Wastewater Treatment Plant, thus addressing the County Executive's priority area: Safety and Security (SS).

This contract is in the public's best interest because it will extend the life of the existing structure. There are no energy or environmental components associated with this project.

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
