

**35508**

**DATE:** August 14, 2013

**TO:** Board of Acquisition and Contract

**FROM:** Sherlita Amler, M.D.  
Commissioner of Health

**RE:** Authorization to enter into Contract with the New York State Department of Health to accept Continued Funding for the Lead Poisoning Prevention Program Grant as follows:

Multi-year Period: 10/1/10 – 9/30/15  
Fourth Budget Period: 10/1/13 – 9/30/14  
Amount: Not-to-Exceed \$326,145

The Westchester County Department of Health (“WCDH”) seeks authorization to enter into contract with the New York State Department of Health (“NYSDOH”) to accept continued funding for the Lead Poisoning Prevention Program Grant (“LPPP”), for the fourth budget period October 1, 2013 through September 30, 2014 pursuant to an approved budget, in the not-to-exceed amount of \$326,145.

The public purpose of the Lead Poisoning Prevention Program is to promote the public health and general welfare of Westchester County residents by ensuring that the county’s residents receive information on minimizing lead exposure in their children. The program actively promotes the blood lead screening of the county’s children as mandated by NYS Public Health Regulation. The purpose is also to ensure that children identified as lead poisoned receive environmental service interventions to assure they live in a lead safe environment.

The goals and objectives of the Lead Poisoning Prevention Program are to ensure that all children who are one and two years of age are screened for lead exposure by their medical provider as required by NYS Public Health Regulation. This is accomplished through primary prevention methods that include community and professional outreach and education. The Lead Poisoning Prevention Program staff serve as a critical resource for primary medical care providers to assure that children receive blood lead screening, diagnostic evaluation, medical treatment and other follow-up services if necessary. In 2012, approximately 17,950 one and two year olds were blood lead screened. 226 children screened with elevated blood lead levels ( $\geq 10 \mu\text{g/dL}$ ).

Lead Poisoning Prevention Program’s staff provides surveillance and monitoring of the county’s blood lead screening and testing data through the NYSDOH Health Information Network’s (HIN) LeadWeb data base. Children identified as lead exposed or poisoned are tracked or case managed through the LeadWeb and LPoisoningPP protocols. Quarterly reports and statistical data are submitted to the NYSDOH.

I certify that my department, a. has copies of, or access to, all applicable laws, rules, regulations, grant applications, and grant agreements (including any master grant agreement), as well as any guidance or

instructions received from the agency making the grant (the "Grant Terms"), b) has reviewed the Grant Terms, c) is aware of and understands all of the Grant Terms, and d) can and will comply with all of the Grant Terms.

Your approval of the attached resolution is respectfully requested.
