RE: AUTHORIZATION TO AMEND AN AGREEMENT (IT-1186) WITH INTERGRAPH CORPORATION FOR SOFTWARE MAINTENANCE AND SUPPORT BY EXTENDING THE TERM OF THE AGREEMENT ONE YEAR TO A NEW TERMINATION DATE OF APRIL 30, 2015 AND INCREASING THE AMOUNT BY \$143,459 TO A NEW TOTAL NOT TO EXCEED AMOUNT OF \$603,808 WITH ALL OTHER TERMS AND CONDITIONS OF THE AGREEMENT REMAINING THE SAME.

BACKGROUND:

- On April 21, 2011, your Honorable Board approved a resolution which authorized entering into an agreement with Intergraph Corporation for software support and maintenance services of the Fire and Emergency Medical Service Computer Assisted Dispatch (CAD) System and a Records Management System (RMS), licensed to and in use by the Department of Emergency Services (DES), for a one year period commencing May 1, 2011 and terminating on April 30, 2012, for a total not to exceed contract amount of \$154,358.
- On April 12, 2012, your Honorable Board approved a resolution which authorized an amendment to Contract IT-1186 with Intergraph Corporation by extending the term one year to a new termination date of April 30, 2013, for a total not to exceed contract amount of \$308,597. The first amendment to the agreement authorized in this resolution was subsequently executed and approved.
- On March 14, 2013, your Honorable Board approved a resolution which authorized an amendment to Contract IT-1186 with Intergraph Corporation by extending the term one year to a new termination date of April 30, 2014, for a total not to exceed contract amount of \$460,349. The second amendment to the agreement authorized in this resolution was subsequently executed and approved.
- Computer software maintenance covers telephone support and proprietary upgrades (bug fixes), which optimize the efficiency of the system to be sure it doesn't go down. Continued software support and maintenance of the CAD System and RMS for the Department of Emergency Services is needed.

- Pursuant to Section 9 of the Westchester County Procurement Policy and Procedures, it is our recommendation that after reasonable investigation, it has been determined that software support and maintenance of the CAD System and RMS from Intergraph Corporation is the only one practicable source for the maintenance of this software.
- Therefore, we now come before your Honorable Board requesting approval to amend an agreement (IT-1186) with Intergraph Corporation for support and maintenance services on application software licensed to and in use by the County of Westchester, by increasing the term one year to a new termination date of April 30, 2015 and by increasing the amount by \$143,459 for the period May 1, 2014 through April 30, 2015 to a new total not to exceed amount of \$603,808.
- This contract will have a public purpose because it promotes timely dispatch of fire and emergency medical personnel in an emergency. This has a direct impact on the safety and welfare of the community.
- The objective of Contract IT-1186 is to assure stability and business continuity 24 hours a day, 7 days a week for Department of Emergency Services and the Fire and Emergency Medical agencies they provide services to. The Fire and Emergency Medical CAD System and the RMS manage and track critical information regarding fire and medical emergency events. Timely and reliable access to information in these applications is critical to the efficient delivery of services, therefore promoting public safety. Any reported application issues are tracked via a tracking process to assure compliance. Regular status meetings are held between the vendor and the Departments of Information Technology and Emergency Services to review and promote timely resolution to these issues.
- The contracted system supports all the stated County Performance Measures. The system supports the fiscal responsibility measure by promoting shared services by DES in the area of Fire and Emergency Medical Dispatch and Record Management, thus saving taxpayers money at the local municipal level in the areas of staffing and system procurement and support. The system supports the safety and security measure by promoting the public safety of county residents as stated in the contract's public purpose. The system supports the health and environment measure by directly contributing to the efficient and timely delivery of fire and medical dispatch services.
