SUBJECT: Authority for the County to exercise its second option under the agreement with Mount Vernon Neighborhood Health Center, Inc. ("MVNHC") for the provision of medical screenings of assisted homeless families and singles for the assessment of health needs and for determining the degree of employability for singles by extending the contract for one (1) additional year commencing July 1, 2014 and terminating June 30, 2015 for an amount not to exceed \$370,000 to be paid monthly pursuant to an approved budget and subject to appropriation

Pursuant to an RFP issued by the Department on May 23, 2012 and a Resolution approved by your Honorable Board on July 19, 2012, the County of Westchester entered into an agreement with Mount Vernon Neighborhood Health Center, Inc. for the provision of medical screenings of assisted homeless families and singles for the assessment of health needs and for determining the degree of employability for singles for the period July 1, 2012 through June 30, 2013 for an amount not to exceed \$370,000 to be paid pursuant to an approved budget, with the County having the sole option to extend the term of the agreement for five (5) additional one (1) year periods.

On May 23, 2013, your Honorable Board approved a resolution authorizing the County of Westchester, acting through its Department of Social Services, to exercise its first option to renew the agreement with Mount Vernon Neighborhood Health Center, Inc. for the term July 1, 2013 through June 30, 2014 in an amount not to exceed \$370,000 to be paid pursuant to an approved budget and subject to appropriation. The agreement was subsequently executed.

The County of Westchester, acting through its Department of Social Services, now seeks authority to exercise the second renewal option under the agreement with Mount Vernon

Neighborhood Health Center, Inc. by extending the contract for one (1) additional year commencing July 1, 2014 and terminating June 30, 2015 for an amount not to exceed \$370,000 to be paid monthly pursuant to an approved budget and subject to appropriation.

The County, acting by and through its Department of Social Services, and in accordance with the applicable Federal regulations, performed a cost analysis of the costs for the County's second option under the agreement. After analyzing current marketplace costs for such services, the Department concluded that the costs of the option are reasonable and it is, therefore, economically prudent to exercise the County's second option under the agreement in order to obtain these services for 2014.

The proposed agreement will serve a public purpose by assisting the County to identify and address medical issues which may impact the appropriateness of the homeless placement for families and impediments to employment for singles who are on public assistance.

The goals and objectives of the proposed agreement are to provide medical screening and assessments of assisted homeless individuals and families in order to identify and address barriers to economic independence that might prevent someone from working and/or locating and maintaining permanent housing.

The goals and objectives of the proposed agreement are in the best interests of the County in terms of public health as they are aimed at identifying, treating and reducing communicable diseases among the homeless.

The goals and objectives of the proposed agreement are also in the best interests of the County in terms of fiscal responsibility as these services will help to reduce the amount of taxpayer dollars spent on acute and long-term care for chronic diseases through prevention, early detection and disease management.

The **Department is able to report that the vendor's Performance Measurement Indicators** reflect that the program met its goal of providing medical screening and assessments to eligible customers referred by the Department. The facility accepted 100% of appropriate referrals during the 2013 contract period. As of 2/28/14, the following outcomes were achieved by this program:

Coachman through February 2014:

1023 assessed
228 received follow-up care
58 referred for specialty care
155 seen as walk-ins

Grasslands Homeless Shelter through February 2014:

1283 assessed
11 received follow-up care

113 referred for specialty care
570 employability assessments

The goals and objectives of the proposed agreement will be tracked and monitored by the Department's program office using the performance measurement indicators developed by the Department and approved by the County Budget Office, as well as through contact with the vendor regarding issues that arise.

Except as specifically amended hereby, all other terms and conditions of the original agreement shall remain in full force and effect.

I most respectfully recommend approval of the attached Resolution.
