Subject: Resolution authorizing the County of Westchester to enter into an agreement with Westchester Community Opportunity Program, Inc. (“WestCOP”) pursuant to which WestCOP, through its Victims Assistance Services program, will provide advocacy and support services to child victims of sexual abuse and severe physical abuse and to children and families receiving foster care services to ensure children's safety and reduce the risk of further abuse for the period from January 1, 2016 through December 31, 2016 for an amount not to exceed \$115,650

Authority is requested for the County of Westchester, acting by and through its Department of Social Services (the “Department”), to enter into an agreement with WestCOP pursuant to which WestCOP, through its Victims Assistance Services (“VAS”) program, will provide advocacy and support services to child victims of sexual abuse and severe physical abuse and to children and families receiving foster care services to ensure children's safety and reduce the risk of further abuse, for the period from January 1, 2016 through December 31, 2016 for an amount not to exceed \$115,650 to be paid monthly pursuant to an approved budget and subject to appropriation.

The services provided pursuant to this agreement will serve a **public purpose** by promoting the safety and general welfare of the children in Westchester County who are the alleged victims of sexual abuse and/or severe physical abuse. This will be accomplished through immediate and ongoing intervention services which will address their victimization and decrease the emotional stress to families in crisis. The program will preserve the family by reducing the risk of abuse, neglect and/or need for foster care placement.

The **goals and objectives** of this agreement are to provide advocacy, protective and preventive services to non-offending family members and child victims of sexual abuse and severe physical abuse and to children and families receiving foster care services. WestCOP will provide concrete services expeditiously to ensure children's safety and reduce the risk of further abuse. Under the proposed agreement, the VAS program will:

- be responsible for immediate and initial crisis counseling services for victims and children who have experienced physical and/or sexual abuse
- be responsible for maintaining continued contact with these families and to assist in the arrangement of specialized supportive services for them
- help these families cope with the multiple demands placed on them by the legal, medical and child protective systems they work with regularly
- participate in the child fatality reviews

The **goals and objectives of the agreement are in the best interest of the County in terms of public health and safety** because the services will promote and ensure the safety and well being of the children who are the alleged victims of sexual/physical abuse by reducing the risk of abuse, neglect and maltreatment.

The **goals and objectives of the agreement are in the best interest of the County in terms of fiscal responsibility** because the services provided by the program will avert the need for foster care placements and the costs associated with such placement. Preventing children from entering the foster care system can result in substantial savings for the County.

The **goals and objectives of the agreement will be tracked and monitored** to evaluate the success of the program using the performance measurement indicators developed by the Department. They include, but are not limited to, submission and reviewing of periodic reports submitted by WestCOP and onsite visits.

Based on the **Performance Measurement Indicators** available as of the end of September 30, 2015, the Department is able to report that WestCOP is meeting targets and outcomes as stipulated by the agreement. As of the end of the third quarter, the program has served 140 children and 121 families. Of the 121 families served, 100% have not had a new CPS report substantiated during the period of services. One hundred percent (100%) of the families surveyed indicated feeling emotionally supported and safe since working with a Child Victim Advocate.

This agreement is exempt from the Westchester County Procurement Policy pursuant to Section 3(a) (xviii) thereof as it is an agreement to improve the well-being of children and youth in Westchester County.

It should be noted that the agreement is exempt from the requirements of the Federal Common Grant Rules as the program falls under the Social Services Block Grant.

Accordingly, your Honorable Board's approval of the attached resolution authorizing the County to enter into an agreement with Westchester Community Opportunity Program, Inc. to provide advocacy and support services is most respectfully requested.
