The County of Westchester requests authorization to enter into an agreement with The Mental Health Association of Westchester County, Inc. ("MHA") to operate the Single Homeless Assessment Center at Grasslands ("SHAC") to provide comprehensive assessments with an average annual capacity of 3,000 sessions and coordinate plans for treatment, housing and employment for homeless single adults for the term of April 1, 2016 through March 31, 2017 in an amount not-to-exceed \$300,000 to be paid in accordance with an approved budget and subject to appropriation.

This agreement serves a **public purpose** as it will promote the health, safety and welfare of the residents of Westchester County by providing comprehensive assessments and coordinated plans for treatment, housing and employment for homeless single adults.

The **goals and objectives** of this agreement are to provide homeless single adults with comprehensive assessments and coordinate plans for treatment, housing and employment. Clinicians provide comprehensive mental health and substance abuse assessments to individuals in order to refer them to services they will need to improve their daily functioning, obtain employment and get education, develop a healthy social support network, improve their interpersonal relations and decrease the need for hospitalizations. Further, these services are

provided by Masters and/or Doctoral level therapists, licensed mental health professionals, and a psychiatrist.

The **goals and objectives of this agreement are in the best interest of the County in terms of public health and public safety** in that the services provided through this contract will ensure the health and safety of the targeted population by providing them with varying forms of assessments and placing them in appropriate housing as well as providing necessary referrals to hospitals, substance abuse programs and other community network providers.

Further, the **goals and objectives of this agreement are in the best interests of the County in terms of fiscal responsibility** as assessing employability and providing supportive services may lead to employment which in turn will promote financial security and self-sufficiency of the targeted population.

The **goals and objectives will be tracked and monitored** through performance measurement indicators developed by the Department. The tracking and monitoring include the submission of monthly statistics and quarterly reports as well as direct contact with the Department of Social Services staff.

The Department is able to report the following Performance Measurement Indicators for 2015:

- 642 unduplicated customers were served in a total of 2,106 sessions
- 86% of customers served attended their 1st scheduled assessment appointment
- 82% of the total number of customers referred to treatment attended their initial appointment

This contract is exempt from the Westchester County Procurement Policy under Section 3(a)viii, which exempts contracts for medical or health-related services and contracts with healthcare workers. This contract is not subject to the competitive procurement requirements of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (formerly, the Grants Management Common Rule) as there is no federal funding for this program.

Accordingly, the County of Westchester is hereby requesting permission to enter into an agreement with The Mental Health Association of Westchester County, Inc. for the reasons stated above.

A resolution requesting the same is attached for your Honorable Board's approval.
