RE: Request Authorization to enter into Contract with Susan J. Herzberg, RHIA, CCS, CCS-P, to provide professional Health Information Management services for the Westchester County Department of Health's patients clinical records and health information policy management, for the period from 06/01/16 to 05/31/18, in the not-to-exceed amount of \$20,000, payable at the rate of Eighty-Five (\$85) per hour

The Westchester County Department of Health (the "WCDH") seeks authorization to enter into contract with Susan J. Herzberg, RHIA, CCS, CCS-P ("Consultant") to provide professional Health Information Management services for the Westchester County Department of Health's ("WCDH") patients clinical records and health information policy management, for the period from 06/01/16 to 05/31/18, in the not-to-exceed amount of \$20,000, payable at the rate of Eighty-Five (\$85) per hour.

As a certified Article 28 facility the WCDH operates Sexually Transmitted Diseases, Tuberculosis and Immunization clinics that serve its respective patients, and is required by New York State Public Health Law ("NYS PHL") to ensure its medical records are maintained according to professional standards and that they comply with federal and state Medicaid fraud prevention requirements. The WCDH is required to maintain accurate medical records that reflect proper coding and documentation of all medical services provided.

Recent changes in NYS PHL have expanded the WCDH's ability to bill for medical services. With insurance billing it is most critical that all medical services provided to the WCDH's clinic patients are correctly coded to ensure prompt and accurate insurance reimbursement.

It is in the WCDH's best interest to again retain the Consultant to maintain continuity in its health information management systems as it pertains to its clinical operations. Having a dedicated professional to continue to build upon existing relationships with WCDH staff has helped successfully implement past changes and will greatly contribute to successful implementation of new changes.

This contract will serve the public health and general welfare of County residents by assisting the WCDH in addressing Health Information Management ("HIM") issues that affect the quality and safety of health care delivered to WCDH patients, and by ensuring that patient medical records adhere to medico-legal standards and federal and state guidelines for the documentation of health care services provided to patients in the department's clinics.

The overall goal of the contract is to ensure that patient medical records adhere to medico-legal standards and federal and state guidelines for the documentation of health care services provided to patients in the WCDH's clinics, and assist the WCDH in addressing complex HIM issues that affect the quality and safety of health care delivered to WCDH patients.

This will be accomplished through quality assurance review of medical record documentation, monitoring of the ICD-10 and coding practices, providing guidance on effective implementation of electronic medical records, policy and procedure development, and education and training on HIM best practices.

The WCDH will track and monitor the contract deliverables through the review of the medical record audit tool, presentation of recommendations at Internal Quality Assurance Committee (IQAC) meetings, other reports and staff feedback.

This contract is exempt from the Westchester County Procurement Policy under section 3(a) viii as contracts for medical and/or health related services.

Your approval of the attached resolution is respectfully requested.
