SUBJECT: Resolution authorizing the County of Westchester to enter into an agreement with Westchester Jewish Community Services, Inc. ("WJCS"), pursuant to which WJCS will provide comprehensive trauma treatment to child victims of sexual abuse and their families, for the period from January 1, 2016 through December 31, 2016 for an amount not to exceed \$60,000 to be paid in accordance with an approved budget

Authority is hereby requested for the County of Westchester, acting by and through its Department of Social Services (the "Department"), to enter into an agreement with Westchester Jewish Community Services, Inc. ("WJCS") pursuant to which WJCS, through its Treatment Center for Trauma and Abuse ("TCTA"), will provide comprehensive trauma treatment to child victims of sexual abuse and their families for the period from January 1, 2016 through December 31, 2016 for an amount not to exceed \$60,000 to be paid in accordance with an approved budget and subject to appropriation.

The TCTA has been offering comprehensive trauma treatment to child victims of sexual abuse and their families for more than 25 years. The program serves all of Westchester County with clinicians in our Hartsdale, Yonkers, Mt. Vernon, and Peekskill clinics. TCTA serves the most vulnerable and needy in Westchester County: children who have experienced sexual abuse, witnessed or been victims of domestic violence, or experienced other forms of serious inter-personal trauma.

This agreement serves a **public purpose** because the services provided by the TCTA will address the mental health and other needs of children, particularly those living in low-income, under-resourced communities, challenged by poverty. The TCTA is the only specialized trauma team in Westchester County that integrates the distinct and overlapping knowledge bases of social workers, psychologists and psychiatrists. WJCS

clinicians are uniquely qualified to help children heal from the trauma and abuse they are experiencing and return to normal developmental functioning through the use of state of the art evidence-based practice.

The **goals and objectives** of the agreement are to provide specialized trauma treatment to child victims of sexual abuse and their families. WJCS will also provide consultation, information and guidance to other professionals to minimize the traumatic impact of abuse and to increase the ability for children to remain safely in their homes and in the community. A WJCS Trauma Center staff member is on site at the Child Advocacy Center providing assistance and referrals to families. WJCS Trauma Center professionals will actively participate in numerous community-wide collaborations that heighten the capacity of Westchester County to comprehensively and effectively meet the needs of children and families affected by abuse and violence.

The **goals and objectives of the agreement are in the best interests of the County in terms of public health** as they are aimed at ensuring the health of the children and families of Westchester County. The TCTA is more than a treatment program; it is also a preventive program. Children who are sexually abused or victims of family violence are at increased risk for repeated abuse, school problems, self destructive or anti-social behavior, substance abuse, serious mental illness including depression and suicide, and out of home placement. The early, effective, and coordinated intervention and state of the art mental health services provided to traumatized children and their families in Westchester County by WJCS will minimize the deleterious effects and will promote positive growth and pro-social behavior.

The **goals and objectives of the agreement are in the best interests of the County in terms of public safety** as they are designed to enhance and ensure the safety of the children and families of Westchester County. WJCS Treatment Center professionals serve on the Westchester County Multi-Disciplinary Team, which includes representation from law enforcement, child protective services, mental health, victim assistance, and medical services. Multi-Disciplinary Team members work together to reduce the traumatic effects on child victims of serious abuse and neglect and determine the ability of children to remain safely in the community with their family.

The **goals and objectives of the agreement are in the best interests of the County in terms of fiscal responsibility** in that the Department is able to avert out-of-home placements of youth and the costs associated with such placements. Preventing youth from entering the foster care and juvenile detention systems can result in substantial savings for the County and the taxpayers.

The **goals and objectives as stated in the agreement will be tracked and monitored** to evaluate success of the services provided by WJCS using the mutually established performance measurement indicators developed by the Department. They include, but are not limited to, reviewing periodic reports submitted by WJCS and site visits.
