RE: AUTHORITY TO ENTER INTO AN AGREEMENT (IT-1406) WITH  
MOTOROLA SOLUTIONS, INC. ("MOTOROLA") WHEREBY MOTOROLA  
WILL PROVIDE MAINTENANCE SERVICES FOR THE COUNTY'S UHF  
TRUNKED AND VHF F1 and F3 CONVENTIONAL ANALOG TWO-WAY  
RADIO SYSTEMS FOR A THREE YEAR PERIOD COMMENCING ON  
JANUARY 1, 2017 AND TERMINATING ON DECEMBER 31, 2019 IN THE  
TOTAL NOT TO EXCEED CONTRACT AMOUNT OF \$1,972,470.24

---

Attached herewith is a resolution which, if approved, would authorize the County of Westchester ("the County") to enter into an agreement (IT-1406) with Motorola Solutions, Inc. ("Motorola") whereby Motorola will provide maintenance services for the County's UHF trunked analog two-way radio system ("Trunked Radio System") and two VHF conventional analog two-way radio systems ("F1 and F3 Radio Systems"). The Trunked Radio System facilitates effective communications among emergency responders throughout the County, including the Department of Emergency Services ("DES"), local fire departments and local emergency medical services. The County Department of Public Works and Transportation also utilizes the system as a means to communicate with its surface bus fleet. The F1 and F3 Radio Systems facilitate communications for the Department of Public Safety and also provide interoperability with municipal police departments within the County.

Pursuant to the proposed agreement Motorola will provide maintenance services, technical support, network monitoring, infrastructure repair and response services for the Trunked and F1 and F3 Radio Systems for a three-year period commencing on January 1, 2017 and terminating on December 31, 2019, in the total not to exceed amount of \$1,972,470.24, payable quarterly. This not to exceed amount is an all-inclusive flat rate. Motorola, as the original equipment manufacturer responsible for the design and implementation of the County's complex radio systems, is the most efficient and knowledgeable source of maintenance services for these systems. The approval of the proposed agreement is key to the County's continued ability to reliably operate these critical systems.

The objective of the requested maintenance services is to ensure that the Trunked and F1 and F3 Radio Systems provide reliable service for emergency responders and the Westchester County Bee-Line bus system twenty-four hours a day, seven days a week, and to ensure that these Radio Systems are properly maintained. These Radio Systems are critical infrastructure and are relied upon by the County's emergency response and public transportation systems. It is in the County's best interest to see that this infrastructure is properly maintained to prevent both unnecessary downtime and to achieve the expected lifespan of the system. DES will track day-to-day performance to ensure Motorola meets or exceeds the contractual service level agreements. DES and DoIT will oversee work performed under the agreement.

By resolution previously approved by your Honorable Board, this procurement has been exempted from the operation of the Westchester County Procurement policy.

Accordingly, the attached resolution is submitted for your consideration.
