Subject: Resolution authorizing the County of Westchester to enter into an agreement with Westchester Institute for Human Development (“WIHD”) for the provision of professional and technical services necessary to maintain and update the on-line Child Welfare DSS Manual for the period from January 1, 2017 through December 31, 2017 for an amount not to exceed \$134,970 payable pursuant to an approved budget and subject to appropriation.

The County of Westchester requests authorization to enter into an agreement with Westchester Institute for Human Development for the provision of professional and technical services necessary to maintain and update the on-line Child Welfare DSS Manual. The term of the proposed agreement will be for the period from January 1, 2017 through December 31, 2017 for an amount not to exceed \$134,970 payable pursuant to an approved budget and subject to appropriation.

The Manual is a comprehensive, online document that gives direct instruction to DSS Child Welfare staff and enables them to immediately access protocols and “best practice” procedures, thereby improving their ability to care for children and families. This, in turn minimizes liability and helps ensure that the standards of practice are met universally across all program areas and all field offices.

This contract will **serve a public purpose** as the Manual allows all levels of DSS staff to get immediate access to an integrated and centralized resource for all policies and directives set forth by federal, state and local authorities that enable them to provide timely and effective services to the families and children of Westchester County.

The goals and objectives of the proposed agreement are to continue providing professional and technical services necessary to maintain and update the on-line Child Welfare DSS Manual. The goals and objectives for the Manual have evolved over time. While initial goals focused on synthesizing and elucidating a wealth of information from many sources, the present goals take into account the fact that the earlier goals have largely been achieved. Thus, current goals aim to

maintain the high quality of the site and keep it current. This requires daily work, since new directives are handed down from all levels of government, including changes to local policy, procedures and practice, on an ongoing basis, and Manual staff must write and integrate that material into the website and add supporting links, text, and forms to make the new material immediately accessible to DSS staff. Not continuing this service would mean that the Manual would become an obsolete resource.

The goals and objectives are in the best interests of the County in terms of fiscal responsibility as the Manual, with its thorough and easily-understood text allows caseworkers to independently research questions on their own, reducing costly time spent in supervision. Families, individuals and children benefit from having caseworkers who are more knowledgeable regarding Department policies and procedures and who can speedily complete the necessary paperwork that documents and supports their important work with families. The 500+ online forms currently on the Manual also promote efficiency, for these forms can be completed, saved, e-mailed, and printed without the user having to leave his/her desk. New forms are formatted and uploaded to the site on a regular basis.

The goals and objectives will be tracked and monitored by the program office. Based on the **Performance Measurement Indicators** data submitted by the vendor, the Department is able to report that from January 2016 through November 2016, 2,116 (duplicated) users accessed a total of 69,234 pages of text. Additionally, approximately 93 online fill-able forms were created and uploaded to the website.

A resolution exempting this agreement from the operation of the Westchester County Procurement Policy has been submitted under separate cover pursuant to section 3(a)xxi of said policy. This contract is not subject to the competitive procurement requirements of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (formerly, the Grants Management Common Rule) as the federal funding for this program falls under the Social Services Block Grant.

Accordingly, the County of Westchester requests authority to enter into an agreement with WHD for the purpose stated above.

Approval of the annexed resolution by your Honorable Board is respectfully requested.

RESOLUTION

Upon a communication from the Commissioner of Social Services, be it hereby:

RESOLVED, that the County of Westchester is hereby authorized to enter into an agreement with Westchester Institute for Human Development for the provision of professional and technical services necessary to maintain and update the on-line Child Welfare DSS Manual for the period from January 1, 2017 through December 31, 2017 for an amount not to exceed \$134,970 payable pursuant to an approved budget; and be it further

RESOLVED, that this Agreement is subject to County Appropriation; and be it further

RESOLVED, that this Agreement is also subject to further financial analysis of the impact of any New York State Budget (the "State Budget") proposed and adopted during the term of this Agreement. The County shall retain the right, upon the occurrence of any release by the Governor of a proposed State Budget and/or the adoption of a State Budget or amendments thereto, and for a reasonable period of time after such release(s) or adoption(s), to conduct an analysis of the impacts of any such State Budget on County finances. After such analysis, the County shall retain the right to either terminate this Agreement or to renegotiate the amounts and rates approved herein. If the County subsequently offers to pay a reduced amount to the Contractor, then the Contractor shall have the right to terminate this Agreement upon reasonable prior written notice; and be it further

RESOLVED, that the County Executive or his authorized designee is authorized to execute all documents necessary to effectuate the purposes of this resolution.
