Re: Resolution authorizing the County of Westchester, to enter into an agreement with North American Family Institute, Inc. (“NAFI”) pursuant to which NAFI will provide the Parenting with Love and Limits Program (“PLL”) Front End Prevention to include group therapy, family therapy and case management services for youth who are at risk of foster care placement for the period from January 1, 2017 through December 31, 2017 for an amount not to exceed \$388,018 to be paid monthly pursuant to an approved budget and subject to appropriation.

Authority by your Honorable Board is respectfully requested for the County of Westchester, acting by and through its Department of Social Services (the “Department”), to enter into an agreement with North American Family Institute, Inc. (“NAFI”) pursuant to which NAFI will provide the Parenting with Love and Limits Program (“PLL”) Front End Prevention to include group therapy, family therapy and case management services for children between the ages of 10 and 17 who are at risk of foster care placement due their behavior and the risk of a Person in Need of Supervision (“PINS”) petition for the period from January 1, 2017 through December 31, 2017 for an amount not to exceed \$388,018 to be paid monthly pursuant to an approved budget and subject to appropriation.

The agreement will serve a **public purpose** by improving family functioning, making the family less dependent on public social service programs and will therefore prevent the need for foster care placement.

The goals and objectives of this agreement are to identify youth who are “at risk” of entering the Family Court or child welfare systems and thereby divert them from foster care. The PLL Front End Prevention program will serve 48 families and will prevent placement in foster care

for at risk children. The PLL Front End Prevention program will help parents and children learn new skills to ensure that these “at risk” children continue to live at home. The program will utilize specialized strategies that address the cultural needs of these families and children. The Department will refer children to the PLL Front End Prevention program.

The goals and objectives of this agreement are in the best interest of the County in terms of public health and safety in that the services will keep children safe and at home. Children who remain at home have better outcomes than those who enter foster care. Further, the children served through this program who are successfully diverted from foster care are less likely to enter the Family Court or child welfare systems and more likely to lead productive lives.

The goals and objectives of this agreement are in the best interest of the County in terms of fiscal responsibility in that the Department will be able to avert the need for foster care placements and the costs associated with such placements. Preventing children from entering the foster care system will result in substantial savings for the County.

The goals and objectives of the agreement will be tracked and monitored by the Department to evaluate success using the performance measurement indicators developed by the Department. NAFI will submit monthly statistical and performance reports in a format approved by the Department. The Program Office will be responsible for setting the milestones and tracking NAFI’s achievements. During the contract period, the Department will maintain ongoing phone and in person contact with the NAFI.

Based on the Performance Measurement Indicators, the Department is able to report that from January 1, 2016 through September 30, 2016, the NAFI PLL Front End Prevention program has provided services to forty (40) families and forty-six (46) children. One hundred percent (100%) of the families were actively engaged within 48-72 hours of referral and 100% of the children are actively participating in the program.

The proposed agreement is exempt from the Westchester County Procurement Policy pursuant to Sections 3(a) xiv and 3(a) xviii thereof. This contract is not subject to the competitive procurement requirements of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (formerly, the Grants Management Common Rule) as the federal funding for this program falls under the Social Services Block Grant.

Accordingly, the County of Westchester is hereby respectfully requesting authorization to enter into an agreement with North American Family Institute, Inc. for the provision of the aforesaid services.

A resolution requesting the same is attached for your Honorable Board’s approval.
