RE: Request for authority to enter into an Agreement with Lifeline Systems Company, Inc. for the purpose of providing personal emergency response system services to frail, homebound seniors under the Expanded In-Home Services for the Elderly Program ("EISEP") for a total aggregate amount not to exceed \$40,609 for the program period April 1, 2018 to March 31, 2019.

The County of Westchester (the "County"), acting by and through its Department of Senior Programs & Services (the "Department"), seeks the authority of your Honorable Board to enter into an agreement (the "Agreement") with Lifeline Systems Company, Inc. (the "Contractor") for the purpose of providing personal emergency response system services to frail, homebound seniors under the EISEP program (the "Program") for an amount not-to-exceed \$40,609, payable at the rates set forth in the attached Schedule "A". The Agreement will be for the period commencing on April 1, 2018 and terminating on March 31, 2019. The contractor is required to contribute an amount not to exceed \$13,536 in matching funds to the Program.

The personal emergency response system, or PERS, is a home device that connects older adults to a 24-hour call center with the push of a button. The transmitter is typically worn on a neck pendant or wristband, and it sends a signal to a receiver that's connected to the home telephone line. When the older adult pushes the button, the staff at the call center evaluates the situation, deciding whether to call an ambulance or a designated friend or family member.

The public purpose of the Program is to provide services that enable seniors to remain at home and prevent their premature institutionalization that leads to greater expense and in a less desired environment, as most seniors prefer to remain at home and receive services there.

The goals and objectives of the Program are to provide eligible seniors with PERS services to enable them to call for help in emergency situations.

The goals and objectives of the Program are in the best interests of Westchester County in terms of fiscal responsibility because use of PERS helps seniors to remain at home thus preventing costly institutionalization.

The goals and objectives of the Program will be tracked and monitored by case managers through bi-monthly calls to seniors and their caregivers as to the quality of the PERS services they are receiving and their satisfaction with the services. In addition, staff monitors review case managers' client case records and records of service at the agencies providing these services, using forms approved by the

State Office for the Aging. Review of the program is done annually by a County monitor, as well as a monitor from the New York State Office for the Aging.

For the previous fiscal year, a total of 1,559 hours of services were provided to approximately 162 seniors.

The Agreement with Lifeline is exempt from the Westchester County Procurement Policy pursuant to Section 3(a) xix thereof.

Accordingly, an appropriate resolution is herewith attached for your Honorable Board's consideration.
