RE: Resolution authorizing the County of Westchester to enter into an agreement with Riverside Health Care System Inc. d/b/a/ St. John's Riverside Hospital ("St. John's"), pursuant to which St. John's will provide a comprehensive chemical dependence treatment program to male and female chemically dependent inmates while incarcerated at the Westchester County correctional facility, for an amount not to exceed \$758,472, commencing January 1, 2019 and expiring December 31, 2019.

---

Authority is requested from your Honorable Board for the County of Westchester (the "County"), acting by and through its Department of Correction ("DOC"), to enter into an agreement ("Agreement") with Riverside Health Care System, Inc., d/b/a/ St. John's Riverside Hospital ("St. John's"), pursuant to which St. John's will provide a comprehensive chemical dependence treatment program ("Solutions Program") to male and female chemically dependent inmates while incarcerated at the County's correctional facility ("County's Jail"). The County will pay St. John's an amount not to exceed \$758,472, pursuant to an approved budget, for the one (1) year period commencing January 1, 2019 and expiring December 31, 2019.

St. John's was selected to provide the services under the proposed Agreement because of their prior experience with the inmate population relating to drug treatment. The County's prior agreement with St. John's for these services expired on December 31, 2018.

Substance abuse treatment is a key fundamental component in achieving criminal behavioral change, because substance abuse is often a factor in criminal activity. Approximately 50% of our incarcerated population has been diagnosed with an addiction. Combining prison and community based treatment for drug addicted offenders often reduces the risk of recidivism and drug related criminal behavior.

The St. John's Solutions Program at the County's Jail impacts public safety because it treats addiction and addresses the unique needs of both male and female chemically dependent inmates at the facility. Through education on addiction, recovery and supportive transition back into the community, offenders at the County's Jail are given the opportunity to successfully reintegrate back into their community. It is well known that there is a high correlation between

drug use and criminal activity. The aforesaid St John's drug treatment program offers inmates learning tools and strategies necessary for recovery from addiction and how to break the cycle of arrest and incarceration.

The Solutions Program provides quality addiction treatment services with an emphasis on relapse prevention; improved conduct and program participation to inmates while at the County's Jail.

Over the past 12 months:

- 353 inmates participated in the Male Solutions drug program
- 261 completed the program prior to release to the community
- 182 female inmates were admitted to the female Solutions program
- 102 female inmate completed the female Solutions program

The substance abuse treatment provided by the Solutions Program at the County's Jail is an important component of the offender's ability to successfully transition back to the community.

St. John's will also use the following subcontractor in performing services:

Westchester Community Opportunity Program, Inc., a/k/a WestCOP  
Victim Assistance Services  
2269 Saw Mill River Road  
Elmsford, NY 10523  
(Victim impact panel sessions)

The goals and objectives of the proposed Agreement are to address the unique needs of both male and female chemically dependent inmates through education on addiction, recovery and transition back into the community.

1. To provide education about addiction and recovery and the relationship to functional life areas.
2. Inmate learning of the tools and strategies necessary for recovery from addiction and breaking the cycle of arrest and incarceration.
3. Provision of quality addiction treatment services with an emphasis on relapse prevention.
4. Improved conduct and program participation while an inmate at DOC.
5. Successful transition to community and reduction in risk for relapse and recidivism.

The DOC will track and monitor the Agreement by conducting quarterly program evaluations. Additionally an annual report will be completed to determine program effectiveness and the achievement of the stated goals and objectives.

This Agreement is exempt from the requirements of the Westchester County Procurement Policy pursuant to Section 3(a)(xvii).

Accordingly, approval of the attached resolution is most respectfully requested.
