RE: Authorization to enter into an agreement with ARCADIS of New York, Inc., pursuant to which it will provide professional consulting services for the County's SCADA systems, including, but not necessarily limited to, troubleshooting programming, configuration, and communications problems, and implementing expansions of, and upgrades to, the SCADA systems, as requested by the County, for a term commencing April 1, 2021 and terminating March 31, 2024, for an amount not-to-exceed \$1,067,000.00 (Agreement No. IT-1684).

Authority is respectfully requested from your Honorable Board for the County of Westchester (The "County") to enter into an agreement with ARCADIS of New York, Inc. ("Arcadis"), pursuant to which it will provide professional consulting services for the County's Supervisory Control and Data Acquisition ("SCADA") systems, including, but not necessarily limited to, troubleshooting programming, configuration, and communications problems, and implementing expansion of, and upgrades to, the SCADA systems, as requested by the County, for a term commencing April 1, 2021 and terminating March 31, 2024, for an amount not-to-exceed \$1,067,000.00, payable monthly at various agreed-upon rates (Agreement No. IT-1684).

The County uses SCADA systems for both the Westchester County Airport and various facilities operated by the Department of Environmental Facilities, including each of the wastewater treatment plants (Blind Brook, Mamaroneck, New Rochelle, Ossining, Peekskill, Port Chester, and Yonkers) and all of the pump stations and Overflow Retention Facilities. The SCADA systems assist in the operation of these facilities by alerting plant operators to problems and by recording important information so that trends can be identified to prevent problems, thereby protecting the sensitive receiving waters in the Hudson River and Long Island Sound.

The County currently employs two individuals who have received basic training in SCADA systems. These individuals can provide preliminary troubleshooting of issues related to the SCADA systems. However, these individuals cannot provide advanced troubleshooting for programming, configuration, and communications problems with the SCADA systems; program or configure the

SCADA systems; or implement expansions of, or upgrades to, the SCADA systems. Accordingly, the County requires a consultant to provide such services for the SCADA systems.

ARCADIS has significant expertise in providing services for SCADA systems. Its expertise is based, in part, on its acquisition of Malcolm Pirnie, Inc. in 2009, which has provided services for the County's SCADA systems since the early 1990s.

The proposed agreement will serve a public purpose by providing the County with the services that are necessary to ensure that its vital SCADA systems at various locations all operate properly and can be updated and improved as necessary and appropriate.

The goal and objective of the proposed agreement is to make available to the County the services that are necessary to ensure that its vital SCADA systems at various locations all operate properly and can be updated and improved as necessary and appropriate.

The goal and objective of the proposed agreements is in the best interests of the County in terms of health and safety, as the County's SCADA systems at various locations are vital in assisting in the operation of those facilities and thereby protecting the sensitive receiving waters in the Hudson River and Long Island Sound.

The goal and objective of the proposed agreement will be continually tracked and monitored by staff from the Department of Information Technology.

Authority to exempt this agreement from the requirements of the Westchester County Procurement Policy, pursuant to Section 3(a)(xxi) thereof, has been submitted to your Honorable Board in accordance with a separate resolution of even date herewith.

The attached resolution is submitted for your consideration.

APPROVED BOARD OF ACQUISITION CONTRACT # 25/152001 LISA MATAJ, SECRETARY

RESOLUTION

Upon a Communication from the Chief Information Officer, Department of Information Technology, the Commissioner of Environmental Facilities, and the Commissioner of Public Works and Transportation, be it hereby,

RESOLVED, that the County of Westchester (the "County") is hereby authorized to enter into an agreement with ARCADIS of New York, Inc. ("Arcadis"), pursuant to which Arcadis will provide professional consulting services for the County's Supervisory Control and Data Acquisition ("SCADA") systems, including, but not necessarily limited to, troubleshooting programming, configuration, and communications problems, and implementing expansions of, and upgrades to, the SCADA systems, for a term commencing April 1, 2021 and terminating March 31, 2024, for an amount not-to-exceed \$1,067,000.00, payable monthly at various agreed-upon rates (Agreement No. IT-1684); and be it further

RESOLVED, that the agreement is subject to County appropriations; and be it further

RESOLVED, that the agreement is also subject to further financial analysis of the impact of any New York State Budget (the "State Budget") proposed and adopted during the term of the agreement. The County shall retain the right, upon the occurrence of any release by the Governor of a proposed State Budget and/or the adoption of a State Budget or any amendments thereto, and for a reasonable period of time after such release(s) or adoption(s), to conduct an analysis of the impacts of any such State Budget on County finances. After such analysis, the county shall retain the right to either terminate the agreement or to renegotiate the amounts and rates approved herein. If the County subsequently offers to pay a reduced amount to the contractor, then the contractor shall have the right to terminate the agreement upon reasonable prior written notice; and be it further

RESOLVED, that the County Executive or his duly authorized designee is hereby authorized to execute and deliver any and all documents and to take all action necessary and appropriate to effectuate the purposes of this Resolution.
