Department of Health

SUBJECT: Authority to amend each of three (3) agreements, pursuant to each of which the contractor was to provide transportation services for pre-school children with special needs, by modifying the terms of payment under each of the agreements in order to add a new provision for certain payments to each contractor in the event that one or more schools or school programs for which transportation services are provided by the contractor is closed and/or conducts only remote learning for a period of at least five (5) consecutive scheduled school days due to COVID-19.

Collectively, by three (3) resolutions approved on August 20, 2020, your Honorable Board authorized the County of Westchester (the "County") to enter into each of the following three (3) agreements (the "Agreements") for transportation services for pre-school children with special needs, for certain schools and school programs, with the following contractors, for the following periods:

Contract Number	Contractor	Term
E/T566	Phillip Trans. Corp.	9/1/20 – 8/31/21
E/T567	MAT Bus Corp.	9/1/20 – 8/31/21
E/T568	Astra Transportation Corp.	9/1/20 – 8/31/21

Each of the Agreements was subsequently executed.

The Department of Health ("DOH") has determined that each of the Agreements should be amended in order to modify their respective terms of payment. Specifically, DOH believes that each of the Agreements should be amended in order to add a new provision for certain payments to each contractor in the event that one or more schools or school programs for which transportation services are provided by the contractor is closed and/or conducts only remote

learning for a period of at least five (5) consecutive scheduled school days due to COVID-19.

Accordingly, the County respectfully requests authority from your Honorable Board to amend each of the Agreements by modifying the terms of payment under each of the Agreements (collectively, the "Amendments") in order to specify that, effective September 1, 2020, in the event that one or more schools or school programs for which transportation services are provided by a contractor is closed and/or conducts only remote learning for a period of at least five (5) consecutive scheduled school days due to COVID-19, the contractor shall be paid, for each scheduled school day for such schools or school programs, for the duration of such period, an amount equal to forty percent (40%) of the amount to which the contractor was entitled for the services the contractor provided for such schools or school programs on the last school day prior to the beginning of such period; provided, however, that such amounts shall only be paid by the County to the extent that they will be used by the contractor for costs associated with it maintaining readiness to resume providing services upon the end of such period.

Except as described above, all terms and conditions of each of the Agreements shall remain in full force and effect.

The proposed Amendments will serve a public purpose by helping ensure that each of the County's contractors for transportation services for children with special needs will, during a covered closure or period of only remote learning, maintain its readiness to provide services under its agreement with the County, such that it can resume providing such services upon the end of such a closure or period of only remote learning, and thereafter provide children with safe transportation to and from the programs in which they participate.

The goal and objective of the proposed Amendments is to help ensure that each of the County's contractors for transportation services for children with special needs will, during a covered closure or period of only remote learning, maintain its readiness to provide services under its agreement with the County, such that it can resume providing such services upon the end of such a closure or period of only remote learning, and thereafter provide children with safe transportation to and from the programs in which they participate.

The goal and objective of the proposed Amendments is in the best interests of the County in terms of public health and safety, as ensuring the future availability of safe transportation services for children in Westchester County with special needs, so that they can safely travel to and from the programs in which they participate, will allow each child to receive appropriate services in accordance with each child's respective approved Individualized Education Program, and do so in the child's least restrictive setting.

The goal and objective of the proposed Amendments will be tracked and monitored by the staff of DOH.

I respectfully recommend the adoption of the attached resolution.
