To: The Honorable Board of Acquisition and Contract

From: George Latimer
County Executive

Re: Resolution authorizing the Westchester County Executive to issue authorizations to department, board, or commission heads for the purpose of enabling them to execute contracts pursuant to Sections 161.01 and 161.11(1)(c) of the Laws of Westchester County.

Pursuant to Sections 161.01 and 161.11(1)(c) of the Laws of Westchester County, enclosed for your consideration is an attached resolution that would authorize me, as the Westchester County Executive, to issue certificates of authorization to the heads of the departments, boards or commissions listed therein, empowering them to execute contracts without submitting a resolution to the Board of Acquisition and Contract, subject to certain conditions. These contracts are commonly called “short form” contracts. When such contracts involve payment by the County, they must have been the subject of an appropriation by the Board of Legislators. In addition, such contracts shall be submitted to the Office of the County Attorney and be approved by said office.

It should be noted that, under the terms of the proposed resolution, the heads of the departments, boards, or commissions may not execute a contract that involves a deed, conveyance, grant, or release of any County interest in all or any part(s) of County lands, property, and real estate, including grants of rights or interests in, over, under, and across any County lands, property, and real estate, as Section 104.11(2) of the Laws of Westchester County specifies that the County Executive shall execute such documents.

It should also be noted that pursuant to Section 161.11(1)(a) of the Laws of Westchester County, the Bureau of Purchase and Supply has been delegated the authority to execute all contracts for purchase, sale, rental, maintenance, or repair of supplies, materials, and equipment, and the services incidental thereto, except with respect to Westchester Community College (the “College”), where such authority has been delegated to the President of the College, subject to the approval of the College’s Board of Trustees. Under said law, these delegations are subject to the condition that contracts for the rental, leasing, or licensing of equipment shall have a rate of less than THREE THOUSAND DOLLARS (\$3,000.00) per month.

Accordingly, under the terms of the proposed resolution, the certificates issued to the heads of departments, boards, or commissions shall specify that they may not execute a contract for the purchase, sale, maintenance, or repair of supplies, materials, and equipment, or for the services incidental thereto, except for contracts for the rental, leasing, or licensing of equipment at a rate of THREE THOUSAND DOLLARS (\$3,000.00) or more per month. However, the certificate issued to the President of the College shall note that the aforementioned restriction shall not be construed to limit the President's ability to execute contracts pursuant to the delegation of authority made under section 161.11(1)(a) of the Laws of Westchester County.

The primary conditions imposed in these certificates are: (a) that the total value of each such contract does not exceed THIRTY-FIVE THOUSAND DOLLARS (\$35,000.00), (b) that the term of each such contract does not exceed one (1) year, and (c) that each such contract has been approved by the Deputy County Executive through the County's Short Form Contract Workflow. There are four special exemptions to the above limitations, which are for the Commissioner of Parks, Recreation and Conservation, the Commissioner of Finance, the Commissioner of Social Services, and the President of the College.

The Commissioner of Parks, Recreation and Conservation is granted an exception to the above dollar and term limitations, and the requirement that each contract be approved by the Deputy County Executive, in connection with license agreements for use of the County Center that generate revenue, provided that: (a) the license fees conform to the rates established by the Parks, Recreation and Conservation Board; and (b) a quarterly listing of all license agreements executed pursuant to the said exception will be filed by the Commissioner with the Board of Acquisition and Contract. The reason for this exception is that such licenses generate revenue and are time-sensitive.

The Commissioner of Social Services is granted an exception to the above dollar limitation for family foster care agreements, provided that the agreements will be with certified foster parents for the placement of foster children at rates not exceeding the foster care board rates established by the New York State Office of Children and Family Services. The reasons for this exception is that these agreements are time-sensitive, occur in high volume, and the rates are set by the State of New York.

The Commissioner of Finance is granted an exception to the above dollar and term limitations relating to the issuance and sale of bonds, notes, or other indebtedness of the County, without submitting same to the Board of Acquisition and Contract for approval, provided that the indebtedness has been authorized by the Board of Legislators and be in an amount equal to or less than the maximum amount authorized by the Board of Legislators, and the authorizations of the Board of Legislators shall have delegated to the Commissioner of Finance the power to prescribe the terms and form of the indebtedness. The reason for this exception is to allow the Commissioner of Finance the ability to obtain necessary professional assistance in a timely manner in relation to debt issuance.

The President of the College is granted an exception, subject to certain limitations, to the dollar and term limitations in connection with certain agreements executed by the President of the

College (except for contracts for public work subject to public bidding under the applicable sections of New York State General Municipal Law and the Laws of Westchester County), provided that all such contracts must also be submitted to and be approved by the Board of Trustees of the College. Also excluded are contracts for voice or data network services, provided however that this limitation shall not apply to: (a) contracts for voice or data network services for which the College has demonstrated to the satisfaction of the County Executive, and the County Executive has acknowledged such satisfaction in writing, that the College is able to contract for such services at terms more advantageous than those that the County has negotiated for such services; and (b) contracts through the State University of New York with a voice and data network service provider different than the provider used by the County. The reason for this exception is to continue the existing practice of granting the College certain freedom in carrying out its affairs. The aforesaid exception complements the transfer of purchasing authority granted to the President of the College, subject to approval of the Board of Trustees, by Local Law 8-2001.

Lastly, the authority granted by the proposed resolution shall permit the certificates issued to the heads of departments, boards, or commissions to be retroactive to January 1, 2022, and to continue through December 31, 2025. Said certificates being permitted to be retroactive to January 1, 2022 is intended to allow for an orderly continuance of government, as the previously-issued certificates all expired on December 31, 2021.

Copies of the standard form of the certificate of authorization, as well as the certificates of authorization modified, as set forth above, for the Commissioner of Parks, Recreation and Conservation; Commissioner of Social Services; Commissioner of Finance; and the President of the College, are attached to the resolution for your review and reference.

I respectfully recommend that your Honorable Board adopt the attached resolution.
