Installation of New Water Service
Yonkers Joint Wastewater Treatment Plant
Yonkers, New York

The 2010 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required for the installation of new water service into the Yonkers Joint Wastewater Treatment Plant. The project also includes installation of new backflow prevention, water main valves and interconnections along with construction of enclosures, site restoration and plantings.

The objective of this contract is to replace the existing deteriorated water main serving the plant.

This contract is in the public's best interest because it will promote the health and safety of the general public by ensuring continued uninterrupted operation of the plant's wastewater treatment systems.
