TO: Board of Acquisition and Contract

FROM: Kunjlata Ashar, M.D.
Acting Pathologist/Medical Examiner
Department of Labs & Research

DATE: January 21, 2011

RE: **Resolution authorizing the County of Westchester to enter into an Agreement with Pace Analytical Services Inc., for the provision of environmental laboratory analyses of water samples, on an as-needed basis, for a term commencing January 1, 2011 and expiring December 31, 2011, in an amount no to exceed Forty-Five Thousand (\$45,000) Dollars, with the County having the sole option to extend the agreement for an additional one (1) year period at rates to be mutually negotiated at the time of renewal**

The attached resolution, if approved by your Honorable Board, would authorize the County of Westchester (the "County") to enter into an agreement (the "Agreement") with Pace Analytical Services Inc. ("Pace"), for the provision of environmental laboratory analyses of water samples, on an as-needed basis, for a term commencing January 1, 2011 and expiring December 31, 2011, in an amount not to exceed Forty-Five Thousand (\$45,000) Dollars, with the County having the sole option to extend the agreement for an additional one (1) year period at rates to be mutually negotiated at the time of renewal.

The Agreement will give the County access to additional analytical testing methodologies, above and beyond those analytical testing methodologies and services currently performed by the County. Although the County maintains an environmental laboratory with full service environmental testing capabilities, there are occasions throughout each year, for testing to be performed utilizing certain test methodologies that are not within the scope of work performed at the County's laboratory. The types of environmental samples that are routinely tested include drinking water, wastewater, soils, solids, wastes and hazardous materials. Thus, the County will be able to provide comprehensive laboratory testing services while restricting certifications and associated costs. Contract costs, plus handling fees will be billed directly to the customer requesting the tests.

The procurement is exempt under section 3(a) viii of the procurement policy, which exempts, among other things, contracts for the services of laboratory technicians. Although this procurement is exempt, the requirements of Section 5 of the Westchester County Procurement Policy were followed: Quotations were solicited from four (4) entities and bids were received from three (3) of the entities, with Pace Analytical Services Inc. being the low bidder. The calculation of lowest price proposal was based on fees submitted by the three (3) responding entities for the most commonly requested test: 25 Dioxins, PCDDs, PCDFs, EPA 8290 (See Schedule "A" attached hereto).

The objective of this Agreement is in the County's best interest because it will promote the public health and safety by ensuring continued safe drinking water for the residents of the County, as well as wastewater discharge monitoring. The goal of the Agreement is to give the Department of

Laboratories and Research (the "Department") access to an additional list of analytical testing methodologies, above and beyond those analytical testing methodologies and services currently provided by and performed by the Department. Although the Department maintains an environmental laboratory with full service environmental testing capabilities, there are occasions every year, for testing to be performed utilizing certain test methodologies that are not within the scope of work performed at the Department's laboratory. Having access to a laboratory that can help fill the gap of missing test methodologies, not offered by the Department's laboratory but offered at Pace's lab is beneficial since County clients can have one source access to all test methodologies available in the marketplace which could be performed on environmental samples for the purposes of identifying the presence or absence of contamination, meeting official compliance, monitoring test requirements, solving problems, and obtaining knowledge of the composition of a sample. These clients include County citizens, businesses, companies, schools, hospitals, villages, towns, cities, and County departments. The types of environmental samples that are routinely tested include drinking water, wastewater, soils, solids, wastes and hazardous materials. The handling of samples by the Department's laboratory for shipment to Pace ensures that they are collected and processed properly, and that the proper test results are obtained and provided to the proper authorities. Fees for any tests performed by Pace are paid for by the client requesting the tests, and the fees are credited to the Department's revenue fund. The Agreement's progress shall be tracked by direct reporting of the results to the County by Pace, as requested by the County.

As I believe this Agreement to be in the best interests of the County, I most respectfully urge your Honorable Board to approve the attached proposed Resolution.

APPROVED BOARD OF ACQUISITION & CONTRACT - 2-10-2014 - PRIMARY VENDOR AGREEMENT

RESOLUTION

Upon a communication from the Acting Medical Examiner/Pathologist, be it hereby

RESOLVED, that the County of Westchester is authorized to enter into an agreement with Pace Analytical Services Inc., for the provision of environmental laboratory analyses of water samples, on an as-needed basis, for a term commencing January 1, 2011 and expiring December 31, 2011, in an amount not to exceed Forty-Five Thousand (\$45,000) Dollars; and be it further

RESOLVED, that the County is authorized to renew the agreement for up to one (1) additional consecutive one-year term; provided that, in the event the County exercises its option to renew the agreement the renewal rate shall be subject to mutual negotiation at the time of renewal, as well as future appropriation; and be it further

RESOLVED, that this Agreement is subject to County appropriations; and be it further

RESOLVED, that this Agreement is also subject to further financial analysis of the impact of any New York State Budget (the "State Budget") proposed and adopted during the term of this Agreement. The County shall retain the right, upon the occurrence of any release by the Governor of a proposed budget of the State of New York and/or the adoption of a State Budget or any amendments thereto, and after the County has a reasonable period of time to conduct an analysis of the impacts of any such budget(s) on County finances, to terminate the agreement authorized herein or to renegotiate the amounts and rates approved herein. If the County subsequently offers to pay a reduced amount to the Contractor, then the Contractor shall have the right to terminate this Agreement upon reasonable prior written notice; and be it further

RESOLVED, that the County Executive or his authorized designee is hereby authorized and empowered to execute any and all documents necessary and appropriate to effectuate the purposes hereof.

SCHEDULE "A"

Water Sample Analysis
Proposals Received December 10, 2010
Total – Not to Exceed \$45,000

This agreement for analytical services of laboratory samples is used as needed for the analyses of substances not performed by our laboratory. We utilize the service most frequently for:

25 Dioxins, PCDDs, PCDFs, EPA 8290

The following cost proposals were submitted for the above test:

Pace Analytical Services Inc 2190 Technology Drive Schenectady, NY 12308	\$620/test
Benchmark Analytics, Inc 2566 Pennsylvania Avenue Sayre, PA 11840	\$645/test
H2M Labs, Inc. 575 Broad Hollow Road Melville, NY 11747	\$650/test
Commercial Lab Enterprise (WMOB) 270 Swinton Avenue Bronx, NY 10465	No bid
