RE: AUTHORIZATION TO ENTER INTO AN AGREEMENT (IT-1196) WITH TECHNISOURCE, INC. FOR PROFESSIONAL CONSULTING SERVICES FOR A ONE YEAR PERIOD COMMENCING ON APRIL 1, 2011 AND TERMINATING ON MARCH 31, 2012 FOR A TOTAL NOT TO EXCEED CONTRACT AMOUNT OF \$285,012

BACKGROUND:

- The Department of Information Technology (DoIT) continues to require consultants to augment its staff. For these services and others, on February 22, 2011, a Request for Proposals (RFP) for Information Technology Professional Consultant Services was issued by DoIT and posted on the County's web site. The RFP requested proposals from qualified individuals and companies to perform IT services in one hundred eleven different service areas and stipulated the intent of the RFP was to seek out and select individuals or companies who will provide the highest quality service at a reasonable per-hour rate. Additionally, the County expects that a number of individuals and/or companies will be selected to provide services based upon proven experience. The RFP contained 111 skill sets, each with a rate for three levels of experience.
- There were fifty-five respondents to the RFP, which were due on March 17, 2011. The responding vendors provided their hourly rates for the skill sets they had. For any particular skill set, starting with the three vendors with lowest hourly costs, DoIT reviewed three resumes from each vendor to determine their qualifications and productivity to meet the County's needs. The vendor with the lowest hourly rate who provides the best qualified, most productive individual is selected -- thus providing the County with the lowest total cost for the required work.
- Technisource, Inc. ("Technisource") was one of the respondents. Based on their response to the RFP, as well as their familiarity and knowledge of County projects, programs and operations, we now come before your Honorable Board requesting approval to enter into an agreement (IT-1196) with Technisource, for the provision of professional consulting services for a one year period commencing on April 1, 2011 for a total amount not to exceed \$285,012.
- Technisource will provide consultants to augment DoIT radio group staff in planning and engineering services to build and maintain state-of-the-art communications systems for the County's wireless communications network and its supporting infrastructure.

- Technisource consultants working on Emergency Operation projects promote public safety in that the projects manage emergency planning information which is critical to an emergency response. Reliable and adequate radio communications systems are vital to all County departments in the execution of their duties to ensure the safety and security of the public.
- The goals and objectives of the requested consulting services in the attached resolution are to bring qualified consultants into DoIT who have experience in the necessary technology and are capable of rapidly administering and updating the necessary hardware and software systems. Consultant services are continually monitored by DoIT staff in conjunction with the associated department to be sure the service provided is effective.

ACTION REQUESTED:

- Authorization to enter into an agreement (IT-1196) with Technisource, Inc., having a place of business located at 100 First Stamford Place Suite 100, Stamford, Connecticut 06902, for the provision of professional consulting services, for a one year period commencing on April 1, 2011 and terminating on March 31, 2012, for a total not to exceed contract amount of \$285,012, payable monthly at the rate of \$87 per hour, subject to county appropriations.

Accordingly, the attached resolution is submitted for your consideration.
