Re: Authorization for the County of Westchester to enter into an Agreement with the County of Nassau whereby Westchester County, through its Department of Laboratories and Research, will provide trace evidence analysis for the Nassau County Crime Lab for the period March 1, 2011 through February 28, 2012, for the fees set forth in the attached fee schedule

By Act No 2011-61, approved on March 9, 2011, the Westchester County Board of Legislators authorized the County of Westchester (the "County") to enter into an intermunicipal agreement ("IMA") with the County of Nassau ("Nassau") pursuant to which the County, through its Department of Laboratories and Research (the "Department"), will provide trace evidence analysis for the Nassau County Crime Lab. Under section 161.11(1) of the Laws of Westchester County, the authority of your Honorable Board is also required.

As your Honorable Board is aware, the Nassau County Crime Lab was recently closed. The Nassau County Medical Examiner has asked the Department for assistance in performing trace evidence analysis for them while their lab is shut down. Accordingly, authority is hereby requested for the County, acting by and through the Department, to enter into an IMA with Nassau, pursuant to which the County, through the Department, will provide trace evidence analysis for the Nassau County Crime Lab. In consideration for these services, Nassau will pay the County the fees set forth in the Department's 2011 Fee Schedule, which is attached hereto. These fees will remain in effect for the full term of the IMA. All fees will be paid on a monthly basis. The term of the IMA will be retroactive to March 1, 2011 and will continue through February 28, 2012.

This Agreement is exempt from application of the Westchester County Procurement Policy pursuant to Section 3(a)iii thereof, which exempts "transactions or contracts with . . . any state, and any political subdivision, agency or instrumentality thereof."

The Agreement will serve a public purpose by promoting public safety to the residents of Nassau County by the Westchester County Forensic Lab's ability to provide trace evidence analysis for criminal case investigation.

The goals and objectives of this Agreement are to provide the residents of Nassau County with timely forensic trace analysis services. The goals and objectives are in the best interest of the County in terms of ensuring continued public safety by enhancing law enforcement's ability to solve crimes and keep criminals off the street. The goals and objectives will be tracked and monitored by the Forensic division and the County of Nassau through verbal and written correspondence.

For the reasons set forth above, I most respectfully recommend approval of the attached resolution.
