RE: Authorization to enter into Contract with the New York State Department of Health to Accept Continued Funding for the Lead Poisoning Prevention Program Grant

Multi-year Period: 10/1/10 – 9/30/15
Second Budget Period: 10/1/11 – 9/30/12
Amount: Not-to-Exceed \$333,572

The Westchester County Department of Health (“WCDH”) seeks authorization to enter into contract with the New York State Department of Health (“NYSDOH”) to accept continued funding for the Lead Poisoning Prevention Program Grant (“LPPP”), for the second budget period October 1, 2011 through September 30, 2012, pursuant to an approved budget, in the not-to-exceed amount of \$333,572.

The public purpose of this program is to promote the public health and general welfare of Westchester County residents by ensuring that children at high-risk for lead exposure receive NYSDOH-mandated blood lead level screening and any necessary environmental interventions and remediation in order to ensure a lead safe environment.

The goal and objectives of the LPPP are to ensure that high-risk children are screened for lead poisoning through prevention methods that include public and professional outreach, education and collaboration with local primary care providers for screening, diagnostic evaluation and medical treatment. In 2010, approximately 16,000 one and two year olds were screened for elevated blood lead levels and 204 children were identified with elevated blood lead levels.

The LPPP is tracked and monitored by collecting and entering blood lead screening data into the NYSDOH’s Health Information Network (“HIN”). Children identified as lead exposed/poisoned are tracked through this system by the WCDH. Quarterly reports are also submitted to the NYSDOH.
