TO: Board of Acquisition and Contract

FROM: Kunjlata Ashar, M.D.  
Acting Pathologist/Medical Examiner  
Department of Labs & Research

DATE: September 23, 2011

RE: **Resolution authorizing the County of Westchester to enter into a grant agreement with the State of New York, acting through its Division of Criminal Justice Services for the County's Department of Laboratories and Research's Division of Toxicology to participate in the Paul Coverdell National Forensic Sciences Improvement Act, for a term commencing on October 1, 2011 and expiring September 30, 2012, in an amount not to exceed \$60,235 Dollars**

---

The attached resolution, if approved by your Honorable Board, would authorize the County of Westchester (the "County") to enter into an agreement (the "Agreement") with the State of New York, acting through its Division of Criminal Justice Services (the "State"), for the County's Department of Laboratories and Research's (the "Department") Division of Toxicology to participate in the Paul Coverdell National Forensic Sciences Improvement Act, for a term commencing on October 1, 2011 and expiring September 30, 2012, in an amount not to exceed Sixty Thousand Two Hundred Thirty Five (\$60,235) Dollars.

The public purpose of this Agreement is to promote the public safety and security of the residents of the County through the Toxicology lab's ability to provide timely results from evidence submissions, thereby expediting criminal case processing.

The objective of this resolution is to accept Federal and State funding to provide the Westchester County Medical Examiner, Law Enforcement and Hospital community with timely and quality scientific results from the evidence submitted to the Division of Forensic Toxicology. The analyses include Postmortem, Human Performance (DWI/DWAI), Drug Facilitated Sexual Assault (DFSA) and hospital casework. Timely analyses are extremely important for prosecution. The Human Performance results for DWI/DWAI cases provide the citizens of Westchester County a higher degree of public safety. For Medical Examiner cases, toxicological results are important in determining the cause of death and impact on various criminal and liability cases affecting the community as well as relatives of the deceased. The Department will monitor and report the progress of this Agreement in quarterly progress reports provided to the granting authority.

Accordingly, I recommend and urge your Honorable Board's approval of the annexed Resolution authorizing the County to enter into this grant agreement with the State.
