with Dvirka and Bartilucci Consulting Engineers, a division of  
William F. Cosulich Associates, PC, until December 31, 2011

Authority of your Honorable Board is requested to extend the term of Agreement No. 02-907 between the County of Westchester and Dvirka and Bartilucci Consulting Engineers, a division of William F. Cosulich Associates, PC ("Dvirka and Bartilucci"), 330 Crossways Park Drive, Woodbury, New York 11797, for the provision of engineering services in connection with the Twin Sludge Force Main Rehabilitation, Mamaroneck and New Rochelle, New York until December 31, 2011. The original agreement commenced on June 15, 2002, and is for a total amount not to exceed \$899,000.00.

The County has been satisfied with the quality of services provided to date. Construction was completed October 30, 2009, and now the final paper work has been submitted. The major work associated with the replacement of the Variable Frequency Drives was delayed due to a signal problem with one of the pump controllers and the time it took to fix this problem. Attached is a Resolution requesting an extension of the agreement until December 31, 2011, with no increase in the not to exceed amount of \$899,000.00.

The objective of this project is to replace unreliable Variable Frequency Drives for the force main sludge pumps with more efficient updated equipment. This project is in the public's best interest because it will promote the health and safety of employees and the general public by insuring that the plant's operations are safe and environmentally compliant.

The department will track scheduling and accomplishments by the consultant and perform on-site inspections to ensure the successful completion of tasks. It is recognized and understood that the County shall evaluate the performance of this contract by the consultant and shall use such evaluation in deciding to award future contracts to the consultant.

I urge your favorable consideration of the annexed proposed Resolution.
