Commissioner of Correction

RE: **Resolution authorizing the County Of Westchester to execute the first of two options to extend its agreement with Partners in Safety, Inc., pursuant to which Partners in Safety provides medical screening of correction officer candidates in an amount not to exceed Twenty Thousand Dollars per year, for a one-year period commencing January 1, 2012 and terminating December 31, 2012, renewable at Westchester County's option for up to one, one-year additional period**

Authority is requested for the County of Westchester (the "County") acting by and through its Department of Corrections (the "Department") to exercise the first of two options to renew its agreement with Partners In Safety, Inc., (the "Contractor") pursuant to which the Contractor provides medical testing for correction officer candidates, for which the County will pay the Contractor an amount not to exceed Twenty Thousand (\$20,000.00), pursuant to an approved budget for the one year period commencing January 1, 2012 and continuing through December 31, 2012, renewable at the County's option for up to two additional one-year term. Your Honorable Board authorized the County to enter the Agreement on March 10, 2011. The agreement was subsequently executed.

This agreement is exempt from the Westchester County Procurement Policy pursuant to Section 3(a) viii of the Policy.

The goals and objectives of this Agreement are to promote workplace safety by insuring that candidates for the position of correction officer meet rigorous pre-employment medical screening standards, and to insure the highest standards of medical fitness prior to the appointment of candidates to correction officer positions. The Department of Correction and Partners in Safety will work in a collaborative manner to insure the conduct of the medical screening and the reporting of testing results are conducted in a timely, confidential, and professional manner

The Department is satisfied with the services provided by vendor Partners in Safety during the term of its previous contract. Utilizing an in-person medical evaluation, the Contractor effectively screened all candidates for the position of Correction Officer. In 2010, the Contractor screened 50 candidates, one of whom was excluded from employment based upon the

results of the medical screening. This vetting process allowed the Department to restrict an individual who was determined to be unsuitable for employment in a correctional setting due to an existing medical condition, furthering the Department's goal of maintaining a high caliber of workforce committed to and ensuring public safety

The goals will be tracked by direct contact between the Special Investigations Unit and the vendor, spot checks of the screening process (i.e. ensuring that candidates are examined for the full duration of time required under the contract), firsthand review of all final reports and invoices generated by the vendor by the Special Investigations Unit supervisors.

The public purpose is to ensure that the Department successfully screens all candidates in an effort to ensure that it is offering employment to individuals who are psychologically suited for working in a correctional setting.

Accordingly, approval of the attached resolution is most respectfully requested.
