TO: Board of Acquisition and Contract

FROM: Jay T. Pisco, P.E.
Commissioner of Public Works and Transportation

Marguerite Beirne
Chief Information Officer

RE: Authority to amend Agreement No. DOT75281 with ACS Transport Solutions, Inc. for the implementation of a computer-aided dispatch and automatic vehicle location system in order to extend the termination date for an additional seven (7) years through August 7, 2018.

On June 15, 2006, your Honorable Board authorized the County of Westchester (the "County") to enter into an agreement with Orbital Sciences Corporation ("Orbital") for the implementation of a computer-aided dispatch and automatic vehicle location system for the County's Bee-Line Bus System. The agreement, dated August 7, 2006, was subsequently executed with a term commencing August 7, 2006 and terminating August 7, 2011. Under the agreement, the County was to pay Orbital an amount not to exceed \$9,737,236.00 pursuant to an approved budget. Included in the price was two (2) years and four (4) months for the installation, testing and acceptance, and a one (1) year warranty period with five (5) years of maintenance commencing at the end of the warranty period.

On May 15, 2008, your Honorable Board authorized the County to consent to the assignment of the agreement from Orbital to Affiliated Computer Services, Inc., which had purchased the Orbital operation. No other changes were made to the agreement.

On January 22, 2009, your Honorable Board authorized the County to amend the agreement to expand the scope of services and increase the fee by \$1,146,955.00 to an amended amount not to exceed \$10,884,191.00.

On June 11, 2009, your Honorable Board authorized the County to consent to the assignment of the agreement from Affiliated Computer Services, Inc. to its wholly owned subsidiary, ACS Transport Solutions, Inc.

On September 10, 2010, your Honorable Board approved Pinnacle Wireless, Inc. as a subcontractor to ACS Transport Solutions, Inc. to provide maintenance for the Transit Communication System.

Due to the prior change in the scope of services and the need to allow ACS Transport Solutions, Inc. to complete the initial agreement, as well as to provide for the one (1) year warranty period with five (5) years of maintenance, authority of your Honorable Board is now requested to extend the term for an additional seven (7) year period through August 7, 2018, at no additional cost to the County. All other terms and conditions of the agreement will remain unchanged.

Board of Acquisition and Contract
Authority to Amend Agreement No. DOT75281
Implementation of a Computer-Aided Dispatch and Automatic Vehicle Location System for the
County's Bee-Line Bus System
ACS Transport Solutions, Inc.
Page 2

The goal and objective of this proposed amendment is to ensure that the project is completed in a timely manner with full operational capacity on all Bee-Line buses operating in all parts of the County. When complete, the project will directly improve bus service within the County by providing real-time management of bus operations, including on-time performance management, automated on-board stop announcements, and congestion and accident avoidance dispatching. In addition, automated collection of passenger usage and bus loading information will modernize schedule and route planning. This project is actively being monitored and controlled by Department of Public Works and Transportation personnel.

Your approval of the attached resolution is respectfully requested.
