RE: Authorization to Advertise for bids for Transportation of Children with Special Needs.

Authorization is requested for the County of Westchester (the “County”), acting by and through its Department of Health, to advertise for bidders to provide transportation services for approximately five hundred (500) children to the educational programs listed on the Attachment.

Bids would be sought to provide transportation services for the period September 1, 2012 through August 31, 2017. The contract offered as a result of this process shall include four (4) cost of living adjustments for each of the periods beginning September 1st and continuing through August 31st, beginning September 1, 2013, at fifty (50) percent of the Consumer Price Index - Public Transportation based on data obtained from The United States Department of Labor’s U.S. Cities Average Series ID: CUUR0000SETG.

As security for the faithful performance of the contracts, the successful bidder(s) will be required to post security in the form of cash, performance bond or letter of credit in a form acceptable to the Commissioner of Finance in an amount equal to twenty percent (20%) of the subtotal of the contract not-to-exceed amount for each one year period from September 1st through August 31st.

The public purpose of these services is to promote the public health and welfare of one of its most vulnerable populations by providing education and transportation to children under five years of age with special needs as mandated by Section 4410 of the Education Law of 1989, and Article 25 Title II-A of the Public Health Law.

The goal and objective of any agreements awarded as a result of a submitted bid is the provision of safe and efficient transportation services to approximately five hundred (500) Westchester County children with special needs, in order to enable their daily participation in Special Needs educational programs.

The goals and objectives are monitored, as per the contract requirements with Transportation provider(s), through required County pre-approval on all bus routes prior to implementation, random County inspections to ensure provider vehicle safety and staff compliance to County policy, and accuracy of billing by monthly reviews of submitted documentation.

Authorization is requested to advertise for bids in the Gannett Journal News (all editions).
