Contract No. 10-551  
Rehabilitation of the Broad Street Bridge  
BIN 3348370  
Cities of Yonkers and Mount Vernon, New York

The 2012 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required for rehabilitation of concrete arches, expansion joints and bridge deck along with repair of sidewalks and bridge parapet walls. The project also includes resurfacing of approach roadways along with replacement of concrete curbs and installation of new pavement markings.

The objective of this contract is to repair substandard structural elements of the Broad Street Bridge, thus addressing the County Executive's priority area: Safety and Security (SS).

This contract is in the public's best interest because it will promote the health and safety of the general public by ensuring that the Broad Street Bridge meets current codes and standards as well as reducing the County's annual maintenance costs. There are no energy or environmental components associated with this project.

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
