RE: AUTHORIZATION TO ENTER INTO AN AGREEMENT (IT-1240) WITH NUTECH INFORMATION SYSTEMS FOR INFORMATION TECHNOLOGY PROFESSIONAL CONSULTING SERVICES FOR A TERM COMMENCING APRIL 1, 2012 AND TERMINATING MARCH 31, 2014, FOR A TOTAL AMOUNT NOT TO EXCEED \$258,409

BACKGROUND:

- On February 22, 2012, the County issued a request for proposals ("RFP") seeking proposals from qualified individuals and companies to provide each of one hundred and twenty-two (122) different information technology professional consultant services.
- In response to the RFP, the County received twenty-four (24) proposals to provide service number 8, entitled "JAVA JSSP J2EE - Server." After a review and evaluation of those proposals, the proposal from Nutech Information Systems ("Nutech") was selected based upon the criteria specified in the RFP.
- We now come before your Honorable Board requesting authorization to enter into an agreement (IT-1240) with Nutech for a term commencing on April 1, 2012 and terminating on March 31, 2014, for a total amount not to exceed \$258,409, payable monthly at hourly rates not to exceed those specified below, for the provision of the following information technology professional consulting services: JAVA JSSP J2EE - Server.

	SERVICE	1 YEAR EXPERIENCE RATE	3 YEAR EXPERIENCE RATE	5 YEAR EXPERIENCE RATE	1 YEAR EXPERIENCE RATE with certification	3 YEAR EXPERIENCE RATE with certification	5 YEAR EXPERIENCE RATE with certification
8	JAVA JSSP J2EE - Server	\$ 58.00	\$ 68.00	\$ 80.00	\$ 58.00	\$ 70.00	\$ 82.00

- The proposed agreement will serve a public purpose by providing the County with the information technology professional consultant services needed for numerous current County projects, as well as future projects that are begun during the term of the agreement. Current County projects for which Nutech will provide services include, but are not limited to, the following:
 - Support, maintenance and administration services of the County's Enterprise Architecture infrastructure which is the County's overall strategic approach to information technology and includes the choice of technologies, standards for use and best practices in using them. Additionally, the Consultant will provide senior level programming skills to assist County developers in implementing code and also

guide staff as to how to implement code and applications into the County's shared environment.

- The goal and objective of the proposed agreement is to make available to the County qualified individuals to provide the aforementioned services for the aforementioned County projects, as well as to provide those services, as necessary, for any future projects that are begun during the term of the agreement.
- The goal and objective of the proposed agreement is in the best interest of the County in terms of fiscal responsibility, as the County will receive the necessary services at a reasonable cost based on the competitive RFP process. For some projects, the services to be provided by Nutech will also save money by implementing or expanding electronic systems that are cheaper to operate than the existing systems.
- The goal and objective of the proposed agreement is also in the best interest of the County in terms of public safety, as a number of the projects for which Nutech will provide services (as described above) directly impact public safety.
- The goal and objective of the proposed agreement will be continually tracked and monitored by staff from the Department of Information Technology in order to ensure that the services are being provided.
