Contract No. 12-512
Cellular Bulkhead Rehabilitation – Phase II
Yonkers Joint Wastewater Treatment Plant
Yonkers, New York

The 2012 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required for the rehabilitation of the phase II portion of the cellular bulkhead which includes rehabilitation of structural support systems, painting, concrete encasement work and installation of cellular bulkhead protective coatings. Work also includes all site restoration including pavement, curbs, walkways, fences, guiderails, underground piping, utilities, and stone riprap as required.

The objective of this contract is to allow the Department of Environmental Facilities to maintain its treatment plant systems and to ensure continuous and reliable processing of wastewater.

This contract is in the public's best interest because it will promote the health and safety of the general public by ensuring continued uninterrupted operation of the plant's wastewater treatment systems. This project will enable the Department of Environmental Facilities to carry out its basic mission to provide wastewater treatment and maintain satisfactory water quality, thus addressing the County Executive's priority area: Health and the Environment (HE).

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
