Re: Authority for the County of Westchester to enter into an agreement with the Westchester Institute for Human Development for the provision of an Educational Care Coordination Program for children in foster care in an amount not to exceed \$257,316 for the period from January 1, 2013 through December 31, 2013 to be paid monthly pursuant to an approved budget and subject to appropriation

Authority is requested for the County of Westchester to enter into an agreement with the Westchester Institute for Human Development ("WIHD") whereby WIHD will continue providing an Educational Care Coordination Program for children in foster care. The term of the proposed agreement will be for the period January 1, 2013 through December 31, 2013 in an amount not to exceed \$257,316 to be paid monthly pursuant to an approved budget and subject to appropriation.

The public purpose of this program is to identify and address the complex educational needs of children entering foster care for the duration of their foster care placement and throughout the reunification process through coordination, collaboration and advocacy.

The goals and objectives of this contract are:

- To ensure timely and seamless transition of appropriate educational services for children entering foster care from home school districts;
- To ensure that children continue to receive educational services to meet their learning needs during their foster care placement;
- To ensure that children transitioning from foster care to birth families or to adoptive placements receive timely and appropriate educational services;

- To ensure appropriate documentation of these educational services in NY CONNECTIONS System and medical records;
- To obtain previous educational records from school districts;
- To summarize the information and make recommendations to assist caseworkers and foster parents in obtaining appropriate school placements in a timely manner;
- To advocate at school meetings for appropriate services;
- To assist with educational planning throughout the foster care placement;
- To assist with obtaining appropriate educational placements when children transition from foster care to homes or adoptive placements.

The goals and objectives are in the best interest of the County as they are aimed at ensuring that children are enrolled in appropriate school placements. When children are not in appropriate educational placements, they do not learn to their capacity and often misbehave at school which can lead to placement disruption. Educational success and achievement are critical to children's well-being. Furthermore, the electronic educational record follows the child as he/she navigates the various stages of the foster care system as well as upon discharge, thus ensuring a seamless flow of information.

The goals and objectives are in the best interests of the County in terms of fiscal responsibility in that the program advocates for children to receive appropriate educational services and supports deemed necessary that are paid through the school system whenever possible. Additionally, cost-savings will come from having the necessary information entered into CONNECTIONS in a timely manner, thus avoiding both state and federal sanctions (federally required data elements are tracked through CONNECTIONS).

The goals and objectives will be monitored using the performance measurement indicators developed by the Department and approved by the County Budget Office. WIHD will submit monthly statistics and performance reports in the format approved by the Department. The program office will be responsible for setting the milestones and tracking their achievements.

Based on the **Performance Measurement Indicators** reported through September 30, 2012, the Department is able to report that WIHD is meeting targets and outcomes as stipulated by the contract. As of September 2012, WIHD has served 67 newly placed children, completed 81 educational summaries and 439 CONNECTIONS entries.

This contract falls under the Social Services Block Grant and therefore is exempt from the requirements of Common Grant Rule.

This agreement is exempt from the Westchester County Procurement Policy pursuant to Section 3(a) xviii which exempts contracts in support of the moral, physical, mental and social well-being of the youth of Westchester County.

Accordingly, the County of Westchester is requesting authority to enter into an agreement with Westchester Institute for Human Development for the aforesaid purpose.

A resolution requesting the same is attached for your Honorable Board's approval.
