RE: Resolution authorizing the County of Westchester to enter into an agreement with The Mental Health Association of Westchester County, Inc. for the provision of Partners-In-Parenting (PIP) program, an intensive home-based psychotherapy and parent skills training for families with children at risk of foster care placement, for the period January 1, 2013 through December 31, 2013 in an amount not to exceed \$223,080 to be paid on a monthly basis pursuant to an approved budget and subject to appropriation

Authority is requested to enter into an agreement with The Mental Health Association of Westchester County, Inc. (MHA) for the provision of Partners-In-Parenting (PIP) program, an intensive home-based psychotherapy and parent skills training for families with children at risk of foster care placement, for the period from January 1, 2013 through December 31, 2013 in an amount not to exceed \$223,080 to be paid on a monthly basis pursuant to an approved budget and subject to appropriation.

This contract serves a **public purpose** in that it preserves the family, reduces risk of abuse, neglect and /or need for foster care placement as caregivers with mental health issues become better equipped to understand and handle child behaviors.

The **goals and objectives** of this contract are in compliance with OCFS regulation NYCRR 18, Part 423 (9) (10), which mandate that the Department provide preventive services to families with children at risk of foster care placement. Furthermore, through the provision of this service, we seek to avoid foster care placement. The MHA PIP Program is able to achieve its goal by providing parenting skills as well as community-based and at-home clinical services to the families. Licensed clinicians provide services to families at high risk due to mental health issues. The parents who are referred for services through the PIP Program are those who are traditionally resistant to parenting skills and psychotherapy. These parents may have impaired

emotional and/or mental functioning and are often subject to other serious conditions such as substance abuse and/or homelessness. Listed below are the goals and objectives of this program:

- Improving overall functioning and ability of parents to care for their children
- Providing direct in-home clinical treatment and services to parents with mental health issues
- Providing 24/7 access to mental health clinician
- Enhancing direct service to the families
- Developing and maintaining parent/child and other family attachments
- Engaging families and their children so that they fully participate in intensive therapeutic, case management and supportive services

The **goals and objectives are in the best interests of the County in terms of public health and safety** because the services provided through this contract enhance parental child-rearing abilities by empowering parents, strengthening families, improving emotional and/or mental functioning and increasing the stability of families, thereby reducing the risk of abuse, neglect and /or need for foster care placements.

The **goals and objectives are in the best interests of the County in terms of fiscal responsibility** as the Department is able to avert the need for foster care placements and the costs associated with such placements. Preventing children from entering the foster care system can result in substantial savings for the County and the taxpayers.

The **goals and objectives as stated in the resolution will be tracked and monitored** to evaluate success using the established performance measures as stipulated in the contract. They include, but are not limited to, reviewing of periodic reports submitted by the vendor and making onsite visits.

Based on the **Performance Measures Indicators** reported as of September 30, 2012, the Department is able to report that the vendor is meeting targets and outcomes as stipulated by the contract and is on track to serving 100% of contract capacity. From January 1, 2012 through September 30, 2012, MHA PIP program served 173 children. Of the 173 served, MHA has averted 96% of those youth from foster care placements and reported that 99.2% of the children served did not become the subject of an indicated CPS report while receiving services.

This contract is exempt from the requirements of the Common Grant Rule as it falls under the Social Services Block Grant.

This contract is exempt from the Westchester County Procurement Policy under Section 3(a) viii and xvii.

Accordingly, the County of Westchester is hereby requesting permission to enter into this Agreement with The Mental Health Association of Westchester County, Inc., for the above stated purpose.

A resolution requesting the same is attached for your Honorable Board's approval.
