

39975

TO: Board of Acquisition and Contract

FROM: Thomas J. Lauro, P.E.
Commissioner of Environmental Facilities

DATE: April 18, 2014

SUBJECT: Resolution authorizing the County of Westchester to enter into an Agreement with Energy Curtailment Specialists, Inc., in order to participate in an energy reduction pilot program, having a term of one (1) year, commencing May 1, 2014 and terminating April 30, 2015, at no cost to the County.

Transmitted herewith is a resolution requesting authority for the County of Westchester (the "County"), acting through and by its Department of Environmental Facilities (the "Department") to enter into an Agreement with Energy Curtailment Specialists, Inc., in order to participate in a pilot program to reduce energy, for an estimate amount of revenue of \$35,000 to be paid to the County, and having a term of one (1) year, commencing May 1, 2014 and terminating April 30, 2015, to be paid in accordance with contract rates.

This Agreement is to participate in a pilot program to reduce energy consumption at peak hours. Pursuant to the proposed Agreement, the Peekskill Wastewater Treatment Plant would switch over to generator power and come off the electrical grid during specific mutually agreed upon peak hours (hereinafter referred to as "Events"). This would free up valuable capacity that could help to prevent blackouts and power shortages in the County. In return for this the County would receive an estimated revenue amount for the one year term of \$35,000. There is no requirement for the County to participate in any specific Event. If the Department opts not to participate in one or all Events for any reason, the County would forego the revenue that would otherwise be paid, but will not incur any other penalties whatsoever.

Authority to exempt this Agreement from the requirements of the Westchester County Procurement Policy and Procedures pursuant to Section 3(a)xxi thereof has been requested by your Honorable Board in accordance with a separate resolution of even date herewith.

This contract is in the public's best interest because Agreement and program will benefit the County since the County will receive revenue for participating in the program and will also protect the electrical grid and reduce energy consumption during peak hours. The Department's plan is to enter into an agreement for this one location as a pilot program. During the term of the Agreement, Department representatives will track and monitor the Agreement by coordinating with Energy Curtailment Specialists, Inc. and reviewing the energy savings and associated revenue.

As I believe this agreement to be in the best interests of the County, I most respectfully urge your Honorable Board to approve the attached resolution.

TJL/jpi

APPROVED BOARD OF ACQUISITION & CONTRACT - 05/08/2014 - JOMARY VIEIRA, SECRETARY

RESOLUTION

Upon communication from the Commissioner of the Department of Environmental Facilities, be it

RESOLVED, that County of Westchester is hereby authorized to enter into an agreement with Energy Curtailment Specialists, Inc., in order to participate in an energy reduction pilot program, having a term of one (1) year, commencing May 1, 2014 and terminating April 30, 2015, at no cost to the County and with funds to be paid to the County in accordance with contract rates. and be it further

RESOLVED, that the County Executive or his authorized designee is hereby authorized and empowered to execute any and all documents necessary or appropriate to effectuate the purposes hereof.
