Subject: **Resolution authorizing the County of Westchester to enter into an agreement with Family Ties of Westchester, Inc. for the provision of the “Every Kid Counts” program serving low and moderate risk Child Protective Services (CPS) families with children and low and moderate risk families referred by the Cross Systems Unit (CSU) for the period from January 1, 2017 through December 31, 2017 in an amount not to exceed \$371,400 to be paid on a monthly basis pursuant to an approved budget and subject to appropriation**

Authority is requested for the County of Westchester to enter into an agreement with Family Ties of Westchester, Inc. for the provision of the “Every Kid Counts” program to connect at risk families to needed services to improve family functioning and to reduce the number of families at risk of subsequent Child Protective Services (“CPS”) reports and/or foster care placements within the areas covered under the Department of Social Services’ (“DSS”) for the period from January 1, 2017 through December 31, 2017 in an amount not to exceed \$371,400 to be paid on a monthly basis pursuant to an approved budget and subject to appropriations.

Family Ties of Westchester’s Every Kid Counts Program is a community based, short-term and intense family focused wraparound program that was developed to prevent child abuse, neglect and out of home care for low and moderate risk families that have come to the attention of Child Protective Services or Cross System Unit. Family Ties provides case management services for these families for a period of 3-6 months to reduce issues and behaviors that result in repeat CPS reports and/or foster care placements, to connect families to needed services and to improve

family functioning. Every Kid Counts is a community-based program where families are linked to community service providers in order to address issues such as; child safety, employment, housing, domestic violence, child support, education and transportation. Family Ties will also provide a Family Team Meeting Specialist to conduct family team meetings (FTM's) for all youth who enter community based foster care. An FTM will be conducted and completed within the first 21 days of placement. The specialist is essential in our Partnership 4 Permanency (P4P) in seeking to reduce the length of stay in foster care and achieve permanency for children in the quickest, safest manner.

This contract serves a **public purpose** because it promotes healthy families and reduces the risk of children entering foster care. Family Ties uses the family unity model to strengthen families and to address dysfunction and mal-adaptation in family systems that place children at risk of out-of-home placements.

The **goals and objectives** of the Every Kid Counts program are to provide short term, preventive and follow-up services addressing the needs of low and moderate risk families that have come to the attention of Child Protective Services or the Cross System Unit. The primary goal is to reduce and prevent family dissolution and substitute care for children. Secondary goals are to address family system dysfunction that places children at risk of abuse and maltreatment.

The **goals and objectives are in the best interest of the County in terms of the public health** because the services provided pursuant to the Family Ties Every Kid Counts program (the "EKC") address specific family systems issues that place children at risk of abuse and maltreatment. Families are guided through services, activities and trainings to inspire them to practice alternative ways of parenting, coping and managing their environments. Parents that adopt healthier lifestyles are often better prepared to parent healthier children.

The **goals and objectives are in the best interest of the County in terms of the public safety** because services provided by Family Ties of Westchester under the "EKC" program reduce the recidivism rate of CPS intervention and improves family functioning as well as provide a resource for the families even after their case is closed. Services provided through the Every Kid Counts Program address family system dysfunctions, which without intervention, would lead to further abuse and maltreatment of children.

The **goals and objectives are in the best interest of the County in terms of fiscal responsibility** in that the Department is able to avert temporary and permanent substitute care of children and the costs associated with such placements. Preventing substitute care can result in substantial savings for the County of Westchester.

The **goals and objectives as stated in the resolution will be tracked and monitored** to verify process, outcome and impact of performance measures as will be indicated in the contractual agreement. Goals and objectives will also be tracked, monitored and verified through periodic reports submitted as per the terms of the contractual agreement. Department of Social Services will also verify goals and objectives through periodic site visits.
