Re: Authority to amend a Resolution authorizing the County of Westchester to enter into agreements with vendor agencies for Title XIX Personal Care Services under the Social Security Act in order to add the new agency listed below to the group of already approved agencies providing Personal Care Title XIX services.

Through a resolution approved on December 4, 2003 and subsequently amended on December 8, 2011, July 26, 2012 and February 21, 2019, your Honorable Board authorized the County of Westchester, acting through the Department of Social Services, to enter into agreements with vendor agencies for Title XIX Personal Care Services under the Social Security Act for a term to commence on January 1, 2004 and continuing indefinitely until terminated by either party upon thirty (30) days prior written notice. The “evergreen clause” was incorporated upon the recommendation of the New York State Department of Health to allow these agreements to continue indefinitely until terminated by either party with or without cause after serving proper notice.

Authority is now requested to further amend the aforesaid resolution in order to add the new agency listed below to the group of already approved agencies providing Personal Care Title XIX services (See Schedule “A” attached).

- Marquis Home Care

Please note that the agreement with this agency will take effect upon execution and will continue indefinitely until terminated by either party upon thirty (30) days prior written notice.

This agreement serves a **public purpose** through the provision of personal home care services to Westchester's Medical Assistance recipients.

The **goals and objectives** of Title XIX contract are to monitor, strengthen and safeguard the functioning of the medical assistance recipients in their homes, with an ultimate goal of obtaining the maximum rehabilitation and self-sufficiency possible.

The **goals and objectives are in the best interest of the County as regards public health and safety** in that the services provided through this contract support the highest level of health and safety possible in the recipient's own home, and promote the delivery of care which addresses the specific needs of the elderly, sick, incapacitated or disabled.

These **goals and objectives are in the best interest of the County from a fiscal perspective** in that one of the Department's specific goals in administering this program through the Title XIX contracts is to monitor that the services provided to the recipients are medically necessary and appropriate and to ensure that these services are provided in a cost-effective manner.

Title XIX of the Social Security Act requires states to create Medical Assistance programs to furnish personal care services to needy individuals. The County, as an agent of the New York State Department of Social Services, administers this program locally and receives reimbursement for the provision of these services from New York State and the Federal government.

The **goals and objectives are monitored** by the Department and through audits conducted by an independent auditor. If any agency fails to meet the specifications, the Department will move to terminate the contract. Complaints received by the Department are duly evaluated and acted upon if deemed necessary.

The Department is able to report that in 2017-18, an average of 1200 cases received Personal Care Services authorized by the County through agreements with providers. All providers successfully delivered services pursuant to Title XIX of the Federal Social Security Act and applicable state law.

These contracts are exempt from the County Procurement Policy pursuant to Section 3(a) viii of that document.

Except as specifically amended hereby, all other terms and conditions of the original resolution as amended shall remain the same. The Amendment is to the resolution because the contract with the agency has not been executed.

We are respectfully requesting your Honorable Board's approval of the annexed Resolution.
