RE: Authority for the County of Westchester (“County”) to exercise its option to renew an agreement with McCall Management Group, LLC (Michael R McCall) for the provision of professional services to coordinate the County’s pest management services in consultation with the Westchester County Pest Management Committee for the period from April 1, 2020 through March 31, 2021, in an amount not to exceed \$38,400 for the period of the agreement, payable monthly upon submission of an invoice for services rendered during the previous month.

On May 2, 2019, your Honorable Board approved a resolution which authorized the County, acting by and through its Department of Health (“WCDH”), to enter into an agreement with McCall Management Group, LLC (Michael R McCall) (“Consultant”), for the provision of professional services to coordinate the County’s pest management services, in consultation with the Westchester County Pest Management Committee (“PMC”). The Agreement was for the term of April 1, 2019 through March 31, 2020, whereby the County would pay the Consultant an amount not to exceed \$38,400.00 for the period of the agreement, payable monthly upon submission of an invoice for services rendered during the previous month, with a County option to renew for an additional one year period on the same terms and conditions.

The PMC is an advisory committee established by Westchester County to develop and implement pest management policies, rules and regulations, including the County’s Pesticide Reduction Law, Chapter 690, Laws of Westchester County (“Law”). PMC members are appointed by the County Board of Legislators and include four County departments in *ex officio* capacity. To accomplish the Law’s requirements, the PMC is granted numerous functions and powers, including evaluating pest management performed by County departments, maintaining data, developing procedures, training County staff, informing the County Board of Legislators and Administration of County compliance with the Law, recommending changes, and others, as listed in the statute.

In order to carry out the purposes of the Law, the County seeks to retain the Consultant, who will perform numerous tasks to promote compliance by Westchester County with the Law, such as: monitoring pest control at numerous County facilities (golf courses, Playland, Valhalla campus buildings, airport, other buildings and parks), training applicable County department staff, advising County staff on best practices, reviewing compliance in recordkeeping and reporting, maintaining a records database, maintaining a liaison relationship with departments, reducing quantity of pesticide applications, utilizing least toxic materials, and other activities as provided in the Agreement scope of work.

This Agreement will serve a public purpose by helping to implement the County's policy of phasing out pesticide usage by County departments and instead, adopting non-chemical pest control strategies. The goals and objectives of this Agreement are to promote compliance by Westchester County with its pesticide reduction statutes, monitor pest control at County facilities, train County staff, maintain a records database, serve as liaison between the PMC and County departments, and other activities defined in the Agreement scope of work.

The goals and objectives are in the best interest of the County in terms of fiscal responsibility because the Consultant's experience will help obtain best performance from pest-control operators, promote compliance with NYS regulations on pesticide applications, reporting, and improve operation of County facilities (golf courses, others). The goals and objectives are in the best interests of the County in terms of safety, security, health and the environment because the Consultant's services will help County departments to implement integrated pest management and reduced-risk pest control practices at County facilities, resulting in improved safety for County employees and the public and increased environmental protection.

The goals and objectives of the Agreement will be tracked and monitored by WCDH through monthly meetings with the PMC, frequent communication by telephone and e-mail with PMC and County departments, and written progress reports.

Authority is now requested for the County, acting by and through its WCDH, to exercise its option to renew an agreement with the Consultant for the provision of professional services to coordinate the County's pest management services in consultation with the Westchester County Pest Management Committee for the period from April 1, 2020 through March 31, 2021, in an amount not to exceed Thirty Eight Thousand Four Hundred (\$38,400.00) Dollars, thereby increasing the total not-to-exceed contract amount to Seventy Six Thousand Eight Hundred Twenty (\$76,800.00) Dollars, upon the same terms and conditions.

Your approval of the attached Resolution is respectfully requested.
