Contract No. 09-557  
Resurfacing and Related Improvements  
Hamilton Avenue (C.R. No. 52)  
At the Intersection of North Broadway  
City of White Plains, New York

The 2010 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required for milling and resurfacing of the intersection of Hamilton Avenue and North Broadway. Also included is the replacement of handicapped curb cuts, traffic signal loops, pavement striping and the cleaning and repair of drainage structures.

The objective of this contract is to replace substandard areas of asphalt paving, thus addressing the County Executive's priority area: Safety and Security (SS).

This contract is in the public's best interest because it will promote the health and safety of the general public by ensuring that Hamilton Avenue meets current codes and standards as well as reducing the County's annual maintenance costs.

The project will provide an environmental benefit by eliminating flooding conditions due to damaged drainage structures.

If this resolution is not approved, the existing substandard pavement areas will continue to deteriorate, resulting in more costly repairs or, possibly, complete replacement in the future.

The department will utilize Primavera Software Management tools to track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
