

TO: Board of Acquisition and Contract

FROM: Lawrence C. Salley  
Commissioner of Transportation

DATE: March 1, 2010

RE: AUTHORITY FOR THE COUNTY OF WESTCHESTER TO ENTER INTO AN AGREEMENT WITH THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION FOR UP TO \$906,455 (UP TO \$725,164 IN FEDERAL FUNDS AND UP TO \$181,291 IN LOCAL MATCH) TO SUPPORT FEDERALLY MANDATED TRANSPORTATION PLANNING REQUIREMENTS FOR THE PERIOD APRIL 1, 2010 THROUGH MARCH 31, 2011

Authority is requested for the County of Westchester to enter into an agreement with the New York State Department of Transportation to accept up to \$725,164 in Federal Funds to be matched by \$181,291 in County Funds to support a \$906,455 federally mandated transportation planning requirement for the period April 1, 2010 through March 31, 2011.

Since 1975, the County of Westchester has participated in a subregional planning program, which is administered by the New York Metropolitan Transportation Council. The goal of the subregional planning program is County compliance with the mandates of federal transportation legislation. Attaining this goal ensures that the County will continue to receive federal transportation funding for its transit system, roads and bridges, and bicycle and pedestrian facilities. In the 2010-2011 program year, the goal will be achieved through the objectives outlined in the work program, including the development of the Westchester County section of the Regional Transportation Plan, collection and reporting of traffic data, a study of the feasibility of demand responsive transit service in the northern portion of the County, transit access for seniors and the disabled and participation in the planning process for the I-287/Tappan Zee Bridge project.

The County's participation in the subregional planning program is in the best interest of the County as it relates to fiscal responsibility, since the County would be ineligible for at least \$10 million in federal transit aid if it did not participate. In addition, funding through this program provides the County with funding to evaluate and plan Bee-Line bus service.

Progress toward the completion of the goals and objectives is tracked via reports on each element submitted quarterly to the New York Metropolitan Transportation

Council, the New York State Department of Transportation, the Federal Transit Administration, and the Federal Highway Administration.

This agreement will relieve the County of a substantial amount of the fiscal responsibility for meeting those requirements by reimbursing the County for 80% of the costs incurred, while maintaining the County's eligibility for substantial highway and transit grants. The County's participation in the program has been approved by the Board of Acquisition and Contract each year since its inception.

On July 1, 1982, a continuing agreement was established to enable the New York State Department of Transportation to provide Federal funds to the County for its continued participation in the subregional planning program. This agreement is modified each year to reflect the annual program and funding allocation to Westchester. Approval is requested for this program year (April 1, 2010-March 31, 2011) at an anticipated funding level of up to \$725,164 in Federal funds, requiring \$181,291 in County match, for a total of \$906,455 for the subregional planning program. The County's funding contribution has been approved in the Department of Transportation's 2010 Operating budget.

In view of the importance of this program to the County's transportation system, I recommend approval of the attached resolution.
