

**TO:** Board of Acquisition and Contract

**FROM:** John J. Hsu, P.E.  
Acting Commissioner of Public Works

**DATE:** February 23, 2010

**SUBJECT:** Resolution for Authority to Advertise  
Contract No. 09-507  
Performance Maintenance Program  
Screenings and Grit Chamber Modifications  
Mamaroneck Wastewater Treatment Plant  
Mamaroneck, New York

The 2010 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required to replace three (3) influent coarse-bar screens along with the rehabilitation of the grit handling system.

In accordance with Chapter 635 of the Laws of Westchester and other applicable law, the Department of Public Works has analyzed this project and determined that a Project Labor Agreement (PLA) will further the purposes of the public bidding laws and will benefit and enhance the interests of the County in the timely and efficient completion of the project. The Contractor to whom this contract is awarded will be required to execute a PLA.

The objective of this contract is to allow the Department of Environmental Facilities to maintain its treatment plant systems and to ensure continuous and reliable processing of wastewater.

This contract is in the public's best interest because it will promote the health and safety of the general public by ensuring continued uninterrupted operation of the plant's wastewater treatment systems. This project will enable the Department of Environmental Facilities to carry out its basic mission to provide wastewater treatment and maintain satisfactory water quality, thus addressing the County Executive's priority area: Health and the Environment (HE).

If this resolution is not approved, the existing influent coarse-bar screens and grit handling system could potentially fail, resulting in the need for emergency repairs.

The department will utilize Primavera Software Management tools to track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
