SUBJECT: Resolution for Authority to Advertise
Contract No. 18-526
Twin Sludge Force Main Rehabilitation
Mamaroneck and New Rochelle, New York

The 2020 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required to rehabilitate the twin sludge force mains which transport primary and secondary sludge from the Mamaroneck Wastewater Treatment Plant to the New Rochelle Wastewater Treatment Plant along Boston Post Road and Le Fevres Lane. This work includes, but is not limited to, CCTV inspection and cleaning of the two sludge force mains, installation of a pressure pipe liner in each of the 8-inch diameter cast iron sludge force mains, miscellaneous point repairs and pipe bend replacements on force main piping, installation of flexible pipe joints in select locations, rehabilitation of the force main control chambers, replacement of ball valves at New Rochelle Wastewater Treatment Plant, restoration, and all other work necessary to provide complete and operable systems between the Mamaroneck and New Rochelle Wastewater Treatment Plants.

The objective of this project is to rehabilitate the twin sludge force main pipelines which transfer sludge from the Mamaroneck Wastewater Treatment Plant to the New Rochelle Wastewater Treatment Plant. This work is necessary to provide improved sanitary facilities that are in compliance with all applicable regulations. This project will implement the most cost-effective and environmentally compliant technologies available.

This contract is in the public's best interest because it enables WCDEF to conduct its basic mission of providing wastewater treatment and maintaining water quality, thereby enhancing the health and general welfare of the residents of Westchester County.

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.
