TO: The Honorable, Board of Acquisition and Contract

FROM: Vincent F. Kopicki, P.E.
Commissioner

DATE: July 26, 2021

SUBJECT: Request for Authority to Advertise
Contract No. **EF-2106**
Maintenance and Service of Emergency Generators
Department of Environmental Facilities
Various locations
Westchester County, New York

Attached for your information is a resolution, which, if approved by your Honorable Board, would authorize the Department of Environmental Facilities (“the Department”) to solicit bids by public advertisement for a contract to service emergency generators and automatic transfer switch maintenance, repair services and rental of generators, as needed. The work under this contract consists of providing all necessary labor, materials, parts and equipment required to fully maintain and provide service for Emergency Generators and Automatic Transfer Switches at DEF facilities located throughout Westchester County. Funds for this project are available in the Operating Budget. The Contract duration is for two (2) years. The Contract may be extended by mutual consent of the Contractor and the County of Westchester for one (1) additional two year term with all prices, terms and conditions remaining the same as the original contract.

The selected contractor will provide annual inspection and preventative maintenance services to ensure the County emergency generators function properly when needed during power failures and other emergency conditions. In addition, on-call services will be available in the event of a problem that cannot be resolved by DEF personnel. The Contractor will provide specialized technicians who have the required training and experience to work on the County equipment systems. The firm that is awarded this contract will also be required to provide rental generator(s) if the power supply is interrupted at any of the facilities or the emergency generator is temporarily unavailable.

The goals and objectives of the contract are to obtain services that will allow the Department to maintain its emergency generators in peak operating condition. During the two year term of the contract, Department representatives will track and monitor the required preventive maintenance, and on-call repairs using written service reports which will be signed by Supervisory staff. These service reports are to be submitted with each payment request. The Contractor will be responsible to comply with all applicable regulations and codes.

This Contract is deemed to fulfill a public purpose as the services provided under this contract

will ensure continuous power supply at various County facilities, promote the public safety of the County, protect the environment and enable the Department to carry out its basic mission to provide wastewater treatment and maintaining satisfactory water quality.

Issuing this contract to maintain emergency generators is fiscally responsible and promotes the safety and work environment of department employees. It will help to extend the operating life of the equipment, and will help to prevent hazards due to improper operation of equipment. In addition to lower operating costs, regular maintenance has been proven to extend the overall life of the equipment, thereby pushing replacement costs further into the future. If, electrical power is interrupted, there is potential for damage to various equipment and control systems that may be very costly to repair.

Your favorable Approval of the attached resolution is respectfully requested.

APPROVED BOARD OF ACQUISITION & CONTRACT - 08/19/2021 - RAYMOND J. CULKY, SECRETARY

RESOLUTION

Upon communication from the Commissioner of Environmental Facilities, be it hereby

RESOLVED, that the Commissioner of Environmental Facilities is hereby authorized to solicit bids by public advertisement on the following two (2) Year Contract with an option to extend for one (1) additional two year term by mutual consent of the Contractor and the County of Westchester with all prices, terms and conditions remaining the same as the original contract:
