SUBJECT: Resolution authorizing an agreement between the County of Westchester and Cornell Cooperative Extension of Westchester County pursuant to which Cornell will provide various County-Wide Environmental Educational Programs.

The attached resolution would authorize the County of Westchester (the "County") to enter into an agreement with Cornell Cooperative Extension of Westchester County ("Cornell"), pursuant to which Cornell will provide various county-wide environmental educational programs for the period commencing January 1, 2022, and terminating December 31, 2022. In consideration for such services, the County would pay Cornell quarterly in a total amount not to exceed \$892,641, pursuant to an approved budget.

With the assistance of the New York State Colleges of Agriculture and Life Sciences, Human Ecology and other units at Cornell University, Cornell conducts a number of county-wide educational programs. The program topics include, but are not limited to, Nutrition, Health and Food Safety, 4-H and Youth Development, Horticulture and the Environment and Global Warming, Climate Change and Energy Conservation. The programs are offered through classes, clinics, conferences and workshops. Participants include youth and adults. The programs are open to both the general public and professionals. In addition, Cornell disseminates information through publications and networking with educators, health professionals and community agencies. Cornell is the only entity that provides this type of service for Westchester County residents.

The goal and objective of this agreement is to provide county-wide educational programs. This year Cornell will provide nutrition education to 400 participants and 60 adults will participate in physical fitness activities, at least 600 youth will participate in their 4-H afterschool program, at least 4,500 volunteers will participate in their Master Gardeners Program. Cornell will submit vouchers quarterly that will include a report detailing all expenses and supporting documentation including but not limited to payroll reports, OTPS cancelled checks and a report summary of services provided. They will

also submit an annual report to the Department of Planning. Cornell was able to meet or exceed all goals in 2021. We anticipate Cornell will continue to meet or exceed all of their goals in 2022

Department of Planning staff shall monitor the agreement by reviewing Cornell's payment requests to ensure that all contractual requirements are met.

This Agreement does not constitute a procurement and, as such, is not subject to the Westchester County Procurement Policy. Rather, in accordance with Subdivision 8 of Section 224 of the County Law of the State of New York, the County is specifically authorized to appropriate funds and enter into agreements for the support and maintenance of Cornell's work.

Accordingly, a resolution to authorize an agreement with Cornell is hereby submitted for your consideration.
